**Antidumping and Countervailing Duty Working Group**  
**June 2024**

**Action Required:** Informational

**Background:**

- U.S. Customs and Border Protection (CBP) employs assets from across the agency to target antidumping and countervailing duty (AD/CVD) evasion, including:
  - Import trade trend and valuation analysis,
  - The use of targeted reviews, and
  - Audits, lab testing, and special operations.
- CBP engages with the Commercial Customs Operations Advisory Committee Intelligent Enforcement Subcommittee's AD/CVD Working Group to improve the transparency of CBP's AD/CVD enforcement and processing.
- CBP provides information on AD/CVD requirements to facilitate legitimate imports and obtain the trade community's input on proposed changes to CBP's AD/CVD policies.
- The AD/CVD Working Group discusses CBP's enforcement of trade remedies under Sections 201 and 301 of the *Trade Act of 1974* and Section 232 of the Trade Expansion Act of 1962.
- CBP strives to be as transparent on AD/CVD enforcement as disclosure laws allow and regularly posts AD/CVD information on CBP.gov and X.
- As of May 16, 2024, CBP enforced all 676 AD/CVD orders. The total number of AD/CVD orders CBP enforces has more than doubled since Fiscal Year 2016.

**Issue:**

- While facilitating legitimate trade, CBP is committed to simultaneously enforcing AD/CVD laws and penalizing those who evade them.
- CBP and the AD/CVD Working Group facilitate legitimate AD/CVD imports and improve importer compliance. Key initiatives include:
  - Increasing compliance with and providing more transparency on AD/CVD certification requirements; and
  - Testing automation to inform customs brokers about potential errors in AD/CVD entries.

**Current Status:**

- The AD/CVD Working Group discussions focus on improving importer compliance with AD/CVD measures.

**Next Steps:**

- The AD/CVD Working Group will continue discussing AD/CVD challenges and importer compliance and gathering the trade community's input on proposed changes to CBP's AD/CVD policies.
