

Commercial Customs Operations Advisory Committee Draft Recommendations

June 2024

Commercial Customs Operations Advisory Committee (COAC)
Secure Trade Lanes Subcommittee
Export Modernization Working Group
Drawback Task Force
Draft Recommendations

1. COAC recommends that each drawback entry (entry type 47) with accelerated payment can only be transmitted and accepted error-free in ACE if the total duties, taxes, and fees claimed for the drawback entry are greater than or equal to \$1,000. All drawback entries under \$1,000 can be transmitted into ACE but will only be paid upon liquidation, without accelerated payment.
