Document Image System (DIS) Implementation Guide

September 17, 2024

U.S. Customs and Border Protection

Be Advised:

A filer who transmits data or information through any electronic means to CBP certifies, by the act of transmitting such data or information, that the data or information transmitted is true and correct to the best of the filer's knowledge and belief. The filer also declares that all statements in an electronically transmitted entry, entry summary, invoice, claim, other filing, and all other information or data filed with the entry are true and correct to the best of the filer's knowledge and belief, and that the filer will produce at once any data or information showing that the statements are not true and correct.

Contents

Table of Changes

Revision Number	Date of doc Change	Brief Description of Change

49	September 17, 2024
	
	August 10, 2024
	
	July 23, 2024
		• Appendix A
		  • For TRP, added DocCode TRP03 (associated Document label: 301STS_CERT)
		
		  • For ECO, added DocCode ECO18 (associated Document label: AR_EXPORT_WGJC_LICENSE)
		
		• Added optional metadata that can be sent when submitting a Vehicle_Title_Certificate via EDI.
		• Updated formatting issues throughout the document
		• Updated page numbers in the Table of Contents

48	June 28, 2024	• For CBP, added doccode CBP166 (associated Document label: 201BIFAC_CERT)

47	March 19, 2024	• DIS Technical Interface Description section
		  • Updated initial paragraphs and Output paragraph
		• Communications Options
		  • Updated first paragraph of the NOTE
		• Document Review Message (Status Notification – Output Only)
		  • Updated the description of the 'DocumentReviewStatus' data element to add two new status options: ACCEPTED or UNDER_REVIEW
		• Appendix A
		  • For APHIS:
		    • Updated the Document Label Code for APH32 (changed from APH_PHYTO_CERTIFICATE to PHYTOSANITARY_CERTIFICATE).
		    • Updated metadata/comments note for APH31 and APH32
		    • Added new document (doccode APH33 - not for trade use) for APHIS PPQ203

Revision Number	Date of doc Change	Brief Description of Change
46	November 17, 2023	• Appendix A • Added DocCode EPA09 and EPA10 for the Environmental Protection Agency (EPA). These will be effective when the EPA Hydrofluorocarbon (HFC) message set is implemented.
45	October 12, 2023	• Appendix A • For Office of Marine Conservation (OMC), the Document Label Code has been corrected to be OMC_DS_20**31** (Previously the document label code was listed as OMC_DS_20**13**). This update is live in CERT and will be deployed to PROD on November 3, 2023.
44	April 18, 2023	• Appendix A: • Added DocCode CBP165

43	December 21, 2022	• Appendix A:
		  • Added DocCode CBP163 and CBP164
		  • Updated the 'comments to DocCode CBP62

42	April 25, 2022	• Appendix E was added. Updated Appendix B and C to reference Appendix E.
		• Appendix A:
		  • Added doccode 160, 161 and 162 for CBP
		  • Updated comments for APH31 and APH32
		  • Added underscores to the EP08 document label code

41	April 09, 2021	• Appendix A:
		  • Added doccode 159 for CBP
		  • Added doccode CPS02 for CPS
		• Updated formatting of Appendix A table, and Table of Changes

Revision Number	Date of doc Change	Brief Description of Change
40	June 16, 2020	• Added two CBP DocCodes (CBP157 and CBP158) for supporting documents for NAFTA and USMCA Drawback claims. • Added the following CAT codes for email submission: USMCA, NAFTA; Added the same codes to the XML PackageCategory data element. • Updated, added, and renumbered notes associated with Appendix B.
39	February 12, 2020	• Removed all DocCodes for FWS except FW02. • Changed the Document Label Code from FWS_TRANSACTION to FWS_SUPPORTING_DOCS • Changed the Official Document Name/Description from 'Transaction Documents' to 'FWS Supporting Documents' • Updated the associated Metadata/Comment description
36.2	April 25, 2019 (corrected on Aug 28, 2019)	• Removed all APHIS Core documents except: APH01, APH02, APH03, in Appendix A. • Updated the Official Document Name/Description, Document Label Code and Metadata/Comments for APH01, APH02 and APH03.
38	July 22, 2019	• Provided clarification to Note 9 in Appendix B; added clarification for the message envelope namespace style in the Example MessageEnvelope – response/output (page 25)
37	July 16, 2019	• In the description for MessageEnvelope, added a reference to Note 9 in Appendix B. • In description for action code, added reference to Note 8 in Appendix B. • In Appendix B, General Guidelines for Documents Submitted to DIS via Email, added Note 8 (related to permitted values of Action Codes) and Note 9 (related to namespace related to MessageEnvelope).
36	April 25, 2019	• In the Introduction section, added notes related to providing Government Agency code • In the 'DIS XML Message Construction' section,

Revision Number	Date of doc Change	Brief Description of Change
		added a note about data element designations. • In 'DocumentSubmissionPackage – (Input Only)': Updated the 'designation' for 'TradeTransaction' from 'M' to 'C'; Updated the 'designation' for 'GovtAgency' from 'M' to 'C'; updated the associated note 4. Updated Note 5 to remove the last sentence and indicate these are expected formats. • In "MessageValidationResponse – (Output Only)': Added the 'designations' for several data elements where this value was previously blank. • In Appendix A, updated the column title names and title descriptions • In Appendix B, Note 3, changed 'AGENCY_CD' to 'conditional' and updated associated text. Updated Note 7 to remove the last sentence and indicate these are expected formats. • In Appendix C, changed 'AGENCY_CD' to 'conditional'

35	November 8, 2018	• In *DocumentSubmissionPackage*, for *ImporterofRecordNbr* format:
		   o Added length+type
		   o Updated language in Note 3
		   o Added Note 5 about IOR formats
		• In Appendix B: General Guidelines for Documents submitted to DIS via email:
		   o In Note 1 - Changed 'Breweries' to 'Beverage'; Clarified language for use of entry number for CBMA
		   o Added Note 3 re: CBMA guidance
		   o Added Note 6, 7. More clarity for file type attachments and IOR formats.
		• In Appendix C: Guidelines for Vessel Documents submitted to DIS via email:
		   o Added Note 6. More clarity for file type attachments.

Revision Number	Date of doc Change	Brief Description of Change
34	October 17, 2018	• Corrected minor typos on page 27 and indicated that <PackageIdentifier> complex element is *conditional* (i.e. mandatory only for CBMA submissions at this time) • Provided guidance on avoiding special characters in document filenames for email attachments and XML • Added documentation for <PackageIdentfiier> in <MessageValidationResponse>
33	October 9, 2018	• Changed case of new CBP Craft Beverage documents to all uppercase • Added CAT=CBMA in email submission subject line for Craft Beverage email submissions • Added <PackageIdentifier> complex element in <DocumentSubmissionPackage> to support CBMA program for XML submissions
32	September 28, 2018	• Added three CBP documents associated with the Craft Beverage Modernization and Tax Act.
31	September 12, 2018	• Added new certificate NMF23 for the National Marine Fisheries Service (NMFS).
30	July 24, 2018	• In Note 3 (associated with DocumentSubmission Package-Input), edited text to clarify acceptable file types. • Due to above clarification, in Appendix D 'XSD Enumerated Value Definitions for DocumentSubmissionPackage', removed 'enumFileExtensionType'

Revision Number	Date of doc Change	Brief Description of Change
29	June 19, 2018	• The following change will be implemented in Production on September 15, 2018. A CSMS will be issued when the change is implemented: Moved COM02-COM11, COM13-COM15 from the *Common Documents* category to the *CBP* category. Changed agency code of those documents from COM to CBP. Assigned new numbers to those documents. • Added a 'note 6' to *Appendix C: Guidelines for Vessel Documents Submitted to DIS via email* to indicate vessel data elements will be added to the DIS XML schema. This change will also be implemented in Production on September 15, 2018. • Added 15 missing data elements (that already exist) to the following tables: DocumentSubmissionPackage, MessageValidationResponse, and DocumentReviewResponse. These are not new but are simply making this document up-to-date. Their field lengths and descriptions are also included. • Added a paragraph to the DocumentSubmissionPackage introduction, related to Length+Type of data submissions. • In places where the 'Existing MQ' item appeared, it was incorrectly shown as item 'U' instead of 'A'. This was changed to 'A'. • Page numbering updated accordingly.
28	February 16, 2018	• Removed CBP137 Doc code from IG (NAFTA Coding Sheet) • Updated the 'CBP139' doc code description to say 'Drawback 1313(c) Documents and Certification(s)

Revision Number	Date of doc Change	Brief Description of Change
27	December 6, 2017	• Appendix B- Updated FTZ Admission Number Transaction Identifier from ADMSN_NBR to ADMISSION_NBR • Appendix A- Added Comments for CBP Document CBP122 • Appendix A- Removed Expiration Date Metadata requirement for Common Documents COM09 and COM10 • Appendix A- Added two new Common Documents COM14 and COM15 • Appendix A- Updated Description for Common Document COM11
26	October 23, 2017	• Added FTZ Admission Number as a valid Transaction Identifier that can be associated with a submitted document. This has been noted in Appendix B for **Email** submissions. Admission Number can also be used in DIS **XML** submissions. This is noted in the XSD in the trade Transactions section. The XSD does not change since this transaction type was already present in the XSD.
25	July 17, 2017	• Clarified language throughout document. Impactful changes are specifically identified below. • Removed references to 'Phase 1' in the DIS Process Flow. • In the DocumentSubmissionPackage section, updated the Parent for CBPrequest and DocumentData, from *TradeTransaction*, to *DocumentSubmissionPackage*; Updated Note 4. • Updated the URL for the XML schema and examples, wherever it appears. • For all Alcohol and Tobacco Tax and Trade (TTB) forms, removed text that indicated the forms were only for non-ABI submissions. • For DEA, removed forms DEA01, DEA02, DEA03 and DEA04 at the request of the PGA.

Revision Number	Date of doc Change	Brief Description of Change
		- Updated metadata/comments language for all DEA forms. - Removed COM12-COFRA Certificate of Financial Responsibility (alternate) from document list. - Updated Appendix C: Guidelines for Vessel Documents via Email (removed IMO_NBR for email subject line; removed PORT_CD, VSL_VYG_NBR, SGMT_NBR, VSL_INSP_ID_NBR from body; updated note 3) - Updated language for effectiveness for Revision Number 24 for documents to support Drawback and Reconciliation. - Data element MessageType updated to reflect DocumentReviewResponse as a valid option. - Added Form for CPS - CPS_CERTICATE_OF_COMPLIANCE (doc code CPS01) - Added Forms to support Drawback (effective at time of ACE Drawback deployment): - Drawback CID Supporting Document (doc code CBP135) - Drawback CID Application (doc code CBP136) - Drawback NAFTA Coding Sheet (doccode CBP137) - Drawback OTW Approval Letter (doc code CBP138) - Drawback 1313I Document (doc code CBP139)

Revision Number	Date of doc Change	Brief Description of Change
24	January 14, 2017	- Deleted Forms for ATF (effective January 14, 2017): - ATF_FORM_6_5330_3A (doc code ATF01) - ATF_FORM_6A_5330_3C (doc code ATF02) - ATF_FEDERAL_FIREARMS (doc code ATF03) - ATF_FEDERAL_EXPLOSIVES (doc code ATF04) - Deleted Forms for CDC (effective January 14, 2017): - CDC_IMPORT_HUMAN_REMAINS (doc code CDC11) - CDC_DEATH_CERT (doc code CDC12) - Added Forms to support Drawback (effective at time of ACE Drawback deployment): - IRS Form 720 (doc code IRS01) - IRS Form 720x (doc code IRS02) - IRS Form 6627 (doc code IRS03) - Drawback Accounts Payable (doc code CBP110) - Drawback Receiving Reports (doc code CBP111) - Delivery Records (doc code CBP112) - Drawback Inventory Records (doc code CBP113) - Drawback Inventory Control Records (doc code CBP114) - Drawback Inventory Turnover Records (doc code CBP115) - Drawback Manufacturing Records (doc code CBP116) - Drawback Sales Order/Contract (doc code CBP117) - Drawback Finished Goods Inventory (doc code CBP118) - Drawback Export Invoice (doc code CBP119) - Drawback Accounts Receivable (doc code CBP120) - Drawback Production Exhibit (doc code CBP121) - CBPF 214 Application for Foreign Trade Zone Admission and/or Status Designation Continuation Sheet (doc code CBP122) - Drawback 1313(p) Certification (doc code CBP123) - CBPF 7514 Drawback Notice (Lading/FTZ Transfer) or Master Declaration (doc code CBP124) - Drawback 1313(b)(p) Certification (doc code CBP125)

Revision Number	Date of doc Change	Brief Description of Change
		○ Drawback Oil Spill Certification (doc code CBP126) ○ Drawback 5062I Certification (doc code CBP127) ○ CBPF 7553 Notice of Intent to Export or Destroy for Purposes of Drawback (NOI) (doc code CBP128) ○ Drawback Proof of Exports (doc code CBP129) ○ Drawback Business Records – Lab Report (doc code CBP130) ○ Drawback Business Records – Certificate of Analysis (doc code CBP131) ○ Drawback Export Waiver / Endorsement Waiver (doc code CBP132) ○ Drawback CID Approval Letter from HQ or Port (doc code CBP133) - Added Form to support Reconciliation (effective at time of ACE Reconciliation deployment) ○ Royalty Agreement (doc code CBP134) - Added metadata to support submission of vessel documents (effective January 14, 2017): ○ CERTIFICATE_NUMBER=Mandatory ○ ISSUE_DATE=Mandatory ○ EXPIRATION_DATE=Mandatory ○ GROSS_TONNAGE= Conditional (Required when submitting Tonnage Certificate) ○ NET_TONNAGE= Conditional (Required when submitting Tonnage Certificate)
23	December 31, 2016	- Deleted Form (effective December 31, 2016): ○ Kimberley Process Certificate (doc code CBP44) - Added Forms (effective December 31, 2016): ○ CBC Kimberley Process Import Certificate (doc code CBC01) ○ CBC Kimberley Process Export Certificate (doc code CBC02)

Revision Number	Date of doc Change	Brief Description of Change

22	October 4, 2016	• Deleted CBP Form (effective October 4, 2016):
		   ○ NMF Highly Migratory Species International Trade Permit (doc code NMF07)
		   ○ NMF AMLR Dealer Permit (doc code NMF21)
		   ○ CBPF_3461 (doc code CBP109)
		• Updated Message Header Message ID length to '50AN' (IG required updating. No system change was made.)

21	August 15, 2016	• Deleted CBP Form (effective August 27, 2016):
		   ○ Protest (doc code CBP31)
		   ○ 520D (doc code CBP34)
		• Added new PGA forms (effective August 27, 2016):
		   ○ CDC Nonhuman Primate Notification
		   ○ ECO AD/CVD Organic Pasta from Italy

20	July 23, 2016	• Deleted CBP Form (effective August 20, 2016): ○ STB (Type 1)

19	July 7, 2016	• Added new PGA forms to be implemented July 23, 2016:
		   ○ FAS Certificate of Quota Eligibility
		   ○ FAS Specialty Sugar Certificate
		   ○ FAS General Note 15c Letter of Exemption

18	May 13, 2016	• New transaction added to IG: DocumentReviewResponse. This is a status notification output only to the trade partner. It is sent when a CBPO rejects the DIS submission back to the trade partner after review. • Communications Options section updated to remove statements about ISA requirements. An existing ISA covers any type of setup (MQ, sFTP or Web Services).

17	May 3, 2016	• Added new PGA forms to be implemented July 23, 2016:
		   ○ OTX Dominican Republic Earned Import Allowance Program Import Approval Certificate
		   ○ OTX Haiti Earned Import Allowance Program Import Approval Certificate

Revision Number	Date of doc Change	Brief Description of Change

16	April 25, 2016	• Added new PGA forms:
		  ○ FWS Transportation Documents
		  ○ FWS Transaction Documents
		  ○ FWS Commodity Specific Documents
		  ○ FWS CITES Foreign Export Permit
		  ○ FWS CITES Foreign Re-Export Certificate
		  ○ FWS CITES Foreign 'Other' Certificate
		  ○ FWS CITES Import Permit
		  ○ FWS Declaration for the Importation and Exportation of Fish or Wildlife (Form 3-177)
		  ○ FWS Wildlife Export and Re-Export Permits Issued by Foreign Government
		  ○ FWS Endangered Species Act Import Permit
		  ○ FWS Marine Mammal Protection Act Import Permit
		  ○ FWS Wild Bird Conservation Act Import Permit
		  ○ FWS Migratory Bird Treaty Act Import Permit
		  ○ FWS Injurious Species Import Permit
		  ○ FWS Bald and Golden Eagle Protection Act Import Permit
		  ○ NMF AMLR Dealer Permit
		  ○ NMF Dissostichus Catch Document – CCAMLR
		  ○ OMC Shrimp Exporter's/Importer's Declaration DS-2013

Revision Number	Date of doc Change	Brief Description of Change
15	March 25, 2016	- XML Examples: added hyperlink - Record Layout Key: date definition updated - Communication Options: updated ISA language for Secure FTP and Secure Web Services - Message Envelope: updated examples - Document Submission Package (Input Only): 'CBPRequestDate' data field changed from Mandatory to Optional 'DocumentDescription' data field changed from Mandatory to Optional - Added new PGA forms: - DEA Permit to Import - DEA Controlled Substances Import/Export Declaration - DEA Import/Export Declaration for List I and List II Chemicals - DEA Import Declaration for Ephedrine, Pseudoephedrine and Phenylpropanolamine - TRP Certificate Inward Processing Regime (IPR) Exports of Pasta to the USA - TRP Certificate for the Export of Pasta to the USA - Deleted PGA forms: - APH Lacey Act Data - APH Lacey Act Supplemental Form - APH Foreign Government Sanitary Certificate (Veterinary Health Certificate) - APH U.S. Permit to Import (Includes Transit) - APH Agreement of Pet Bird Owner (U.S. Origin Returning) - CDC Permit Exemption Letter - Notice to Owners and Importers of Dogs (CDC Form 75.37)

Revision Number	Date of doc Change	Brief Description of Change

		o CDC Record of Sickness or Death of Dogs and Cats
		• Added new common forms:
		    o Safety Construction Certificate
		    o Safety Equipment Certificate
		    o Radio Certificate
		    o Dangerous Goods Compliance
		    o Ship Security
		    o Safety Management Certificate
		    o Load Line Certificate
		    o Registry/Certificate of Nationality
		    o Tonnage Certificate
		    o Certificate of Financial Responsibility
		    o Certificate of Financial Responsibility (Alternate)
		    o Continuous Synopsis Record
		• Added Internal Transaction Number (ITN) as a transaction type for Appendix B
		• Added Appendix C: Guidelines for Vessel Documents Submitted to DIS via Email
		• Added Appendix D: XSD Enumerated Value Definitions

14	October 30, 2015	• Added new form: o CBP Form 3461 to Appendix A
13	October 7, 2015	• Corrected Document Label Value for ECO15 • Corrected Document Label Value for CBP87 • Corrected Document Label Value for TTB05 • Added directions for identifying multiple agencies when sending documents via email
12	July 27, 2015	Applied new technical documentation template. No content changes.
11	July 6, 2015	Revised document to follow ACE CATAIR format.

Revision Number	Date of doc Change	Brief Description of Change
10	April 1, 2014	Changed the DIS destination IP to 173.255.63.75 for sFTP and Web Services. Removed T&E (7512) Number data element from the 'APHIS Transit Permit' document. Added four new forms: - CDC Importation Permission Letter - CDC Form 0728 - CDC Import Permit Exemption Letter - TTB Champagne Certificate of Origin.
9	Feb. 22, 2014	Updated this document to reflect the new Message Schema.
8	Feb 23, 2012	Updated the following sections to include the FSIS documents. Added a note indicating that only documents explicitly listed in the Federal Register should be submitted via DIS.
7	Dec. 17, 2011	Updated various sections to include all system-supported documents. Clarified definitions of Document Sender and Document Owner.
6	Sept. 19, 2011	Updated documentation to include APTL documents.
5	Feb. 21, 2011	Highlighted documents supported in current version of DIS
4	Dec. 23, 2010	Updated narrative text
3	Nov. 8, 2010	Updated Schema
2	Oct. 7, 2010	Updated Schema
1	Oct. 1, 2010	Initial Version/Release

Preface

This document provides guidance on the methods by which documents and images may be transmitted electronically to CBP by Trade via the Document Imaging System (DIS). This document is not intended to teach XML programming. If unfamiliar with XML programming, please consult an advisor. CBP does not provide specific programming advice.

XML Examples

Full XML transaction examples are available at https://www.cbp.gov/document/guidance/ace-dis-xml-schema in the Supporting Documents tab. The XML examples are inside the DIS XSD in the XML Examples folder. Look them over for an initial visual understanding of the XML format. Read this Implementation Guide while using the examples as a visual resource.

XSD Files – XML Schema Definition

Find the XSD Schema Definition files at https://www.cbp.gov/document/guidance/ace-dis-xml-schema in the Supporting Documents tab. These files should be opened with a valid XML Editor. They should not be viewed with a simple text editor.

XSD files provide data element syntax, definitions, declarations. The XML programmer can avoid initial errors by using tools such as JAXB rather than typing them by hand.

Data elements in CommonData.xsd appear in all DIS transactions – input and output. Data elements in the other .xsd files are specific to one transaction type.

Transmitters can validate the XML transaction against the schema to check for errors prior to sending the transaction to CBP.

Enumerated Value Definitions can be found in Appendix D at the end of this document.

Record Layout Key

The following key describes the columns of the record layout definitions that follow.

Data Element: Contains the name of the reported data field.

Length: Indicates the minimum and maximum, allowed length of the reported data element.

Type: Defines the data type accepted for the data element. The Type definition represents the accepted data types to be used in <u>**all**</u> filing scenarios. Valid data types are as follows:

> **A** = Alphabetic Data. Consists of characters A through Z
> (uppercase ONLY).
> **N** = Numeric Data Only. Consists of numerals 0 through 9.

AN = Alphanumeric Data. Consists of characters A through Z (uppercase ONLY), numerals 0 through 9, and space.

D = Date – Must be in UTC format.

X = Special Data. Consists of characters A through Z (uppercase ONLY), numerals 0 through 9, space, and any other character found on a standard keyboard. The following characters are accepted:

! @ # $ % ^ & * ( ) - _ = + [{] } \ | ; : ' " , < . > / ? ` ~ ¢

Designation: Indicates the reporting requirements as follows:

M = Mandatory. A value conforming to the listed class is required in all filing scenarios.

C = Conditional. A value conforming to the listed class may or may not be required for a particular filing scenario. The usage notes will describe the specific cases in which the data element is required or not allowed to be reported.

O = Optional. A value conforming to the listed class will be conditionally accepted if provided.

Description: Defines the data element and provides a further description of how it is to be reported. May include a list of acceptable values, an exception or further specification of the data class, and/or various rules regarding format, justification, and truncation.

Introduction

DIS allows participating Trade Partners to submit document Images and associated descriptive metadata to CBP electronically. Messages may be transmitted in XML format using either secure web services, FTP or MQ or in certain cases via email as identified later in this document. Upon successful transmission, the documents are securely stored and made available for review by CBP and Participating Government Agencies (PGAs). Documents submitted via DIS are in lieu of paper documents.

DIS presently provides the following document image submission and management capabilities:

- Allows Trade Partners to submit document images and associated descriptive metadata intended for CBP and PGAs in an automated manner
- Stores all submitted documents in a secure centralized CBP database and maintains associations with transactions such as Entries and Bills and other related descriptive data
- Allows authorized CBP and PGA users to retrieve, view, review, and annotate documents via a web based user interface
- Provides security, authorization and auditing capabilities
- Provides validation error results or receipt notification back to trade partners for each submitted document transmission
- Provides capabilities for CBP Client Representatives to view raw received messages and audit information to assist trade partners in troubleshooting.

Please note the following, regarding how CBP and PGAs can view the documents that are submitted by trade to DIS:
- CBP can view all documents, regardless of if it is a CBP document or a PGA document
- PGAs can only view documents that are 'owned' by that agency per the Appendix A of this document, OR, if trade submits additional PGA agency codes that allows non-owning agencies to view the document. (For XML, the additional agencies are added via the GovtAgency data element. For email, they are added via AGENCY_CD).
- If a document is owned by a given agency, you do not need to also provide that agency's code in the above locations when submitting the document.

DIS Technical Interface Description

The DIS technical interface provides Trade Partners with the capability to submit documents to CBP electronically along with any required metadata. Trade Partners will receive a system validation response for each submission. Please note that sometimes the DIS mailbox may get backlogged and responses may not be received immediately. In these instances, please report the issue to the CBP Helpdesk but do not resend the original email(s) again.

Trade Partners may also receive an unsolicited document reviewed message (ACCEPTED, REJECTED, or UNDER_REVIEW) when a document is reviewed or a comment for trade is added.

Documents submitted via DIS are electronic 'text' embedded in an XML message that get programmatically converted to actual documents on the receiving end. Multiple document and image formats are supported. The images are embedded in the XML message along with distinct metadata fields that describe the document. All data elements are described in detail in the XML field definitions included in this implementation guide.

Input

The XML message payload containing document images and any associated metadata remains the same for all three communication protocols. Note that the payload is wrapped in a SOAP Envelope when submitted to the DIS SOAP Web Service. CBP supports three different communication protocols for DIS XML submission:

- **Existing EDI MQ Interface**
- **Secure FTP**
- **Secure Web Services (Requires SOAP Envelope)**

Output

All DIS responses for the above inputs will be attempted to be sent back to Trade in XML format **via existing EDI MQ** irrespective of how the DIS transaction was submitted to CBP, if an outbound queue exists for the submitter.

Communications Options

Documents may be submitted to DIS as an XML payload to the below three technical interfaces, or in certain cases via email that is sent to specific mailboxes as noted in later sections in this ICD.

The XML message can be submitted to the DIS Gateway via three supported interfaces:

    a. Existing EDI MQ Interface
    b. Secure FTP (sFTP)
    c. Secure Web Services

A. Existing MQ

- XML input submitted via MQ and output returned via MQ.
- Common Input queue for inbound messages: ATS.DIS.MSG.INBOUND
- Specific Output queue for outbound messages: ATS.DIS.PPPPFFF.Outbound (PPPP = Four-digit Port Code. FFF = Three-character Filer Code)
- Max message size: 100 MB

B. Secure FTP (sFTP)

- XML input submitted via sFTP. Output returned via MQ.
- Universal UserID and Password used by all trade partners.
- Max message size: 100 MB.

C. Secure Web Services

- XML input submitted via Web Services. Output returned via MQ.
- XML message structure requires a SOAP envelope.
- Universal UserID and Password used by all trade partners.
- Max message size: 100 MB.

NOTE:

All asynchronous responses back to the trade are sent in XML format via EDI MQ regardless of the technical interface via which the XML payloads were submitted to CBP, if an outbound queue exists for the submitter.

Web Services will also return a synchronous response immediately upon document submission.

Responses to email submissions are sent back to trade via email to the address specified in the RETURN_EMAIL_ADDRESS element in the email body <u>or</u> to the address the email was received from if RETURN_EMAIL_ADDRESS element was not specified.

Inbound Settings

A. MQ Settings

DIS Inbound Queue Name: ATS.DIS.MSG.INBOUND

NOTE: These are the same settings as with any other application running thru MQ

Interface	IP	Port	Queue Manager
CERT	167.144.89.231	1531	QGC1
PROD	167.144.89.228	1530	QGP2

B. sFTP Settings

Interface	DIS Destination IP	Port	URL / Server Name
CERT	216.81.87.70	2923	fnwg-dp-internet05.cbp.dhs.gov
PROD	216.81.87.65	2023	dp-int-exvip1.cbp.dhs.gov

C. Web Services Settings

NOTE: *For Web Services, URL / Server Name is required.*

Interface	DIS Destination IP	Port	URL / Server Name
CERT	216.81.87.70	2933	fnwg-dp-internet05.cbp.dhs.gov
PROD	216.81.87.65	2033	dp-int-exvip1.cbp.dhs.gov

Web Services – Additional Information

Additional Guidelines

- DIS Web Services implements SSL, Client IP authentication, login credentials and security tokens as layers of security checks.
- DIS Web Services implements the SOAP protocol.
- The DIS XML Message input should be embedded in the SOAP body of the SOAP envelope.

- Certain SOAP headers may be defined to facilitate routing and security.
- The DIS XML Message *within* the SOAP envelope should not have the XML instruction **<?xml version="1.0" encoding="utf-8" ?>** since the SOAP envelope is itself an XML construct.
- The xml command line should be the first line of the SOAP message.

Web Services Security Implementation

- HTTPS protocol is used.
- Login and Password authentication: A User ID and Password is provided by CBP.
- Login credentials are used to obtain a valid Security Token with the getSecurityToken() function.
- Valid security token is used to make subsequent calls to other operations in the Web Service.
- Security token expires after a certain amount of time and must be re-obtained dynamically from the Web Service.

DIS High Level Process Flow
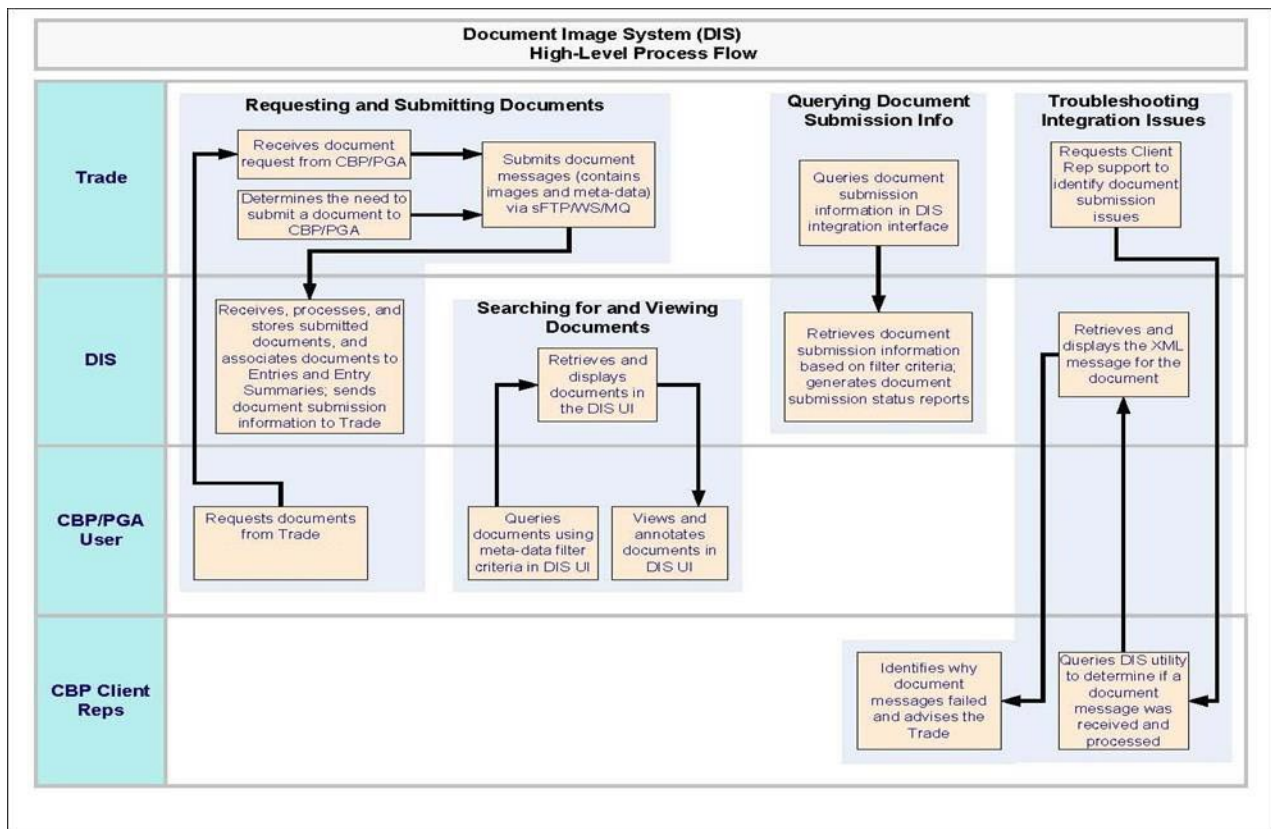

DIS XML Message Construction

NOTE: A data element may be mandatory if the parent is provided. Please check the parent for its mandatory or conditional attributes. In all cases, the DIS XML schema should be considered the definitive guide for all XML submissions.

DIS XML message construction consists of four main components:

• MessageEnvelope
• MessageHeader
• MessageBody
• Submission Package (Input); or Response (Output)

Only one package may be submitted in a single DIS transaction. Multiple *documents* may be referenced from within the submission package although a single document submission at a time is recommended. Examples of DIS XML transactions (Input and Output) can be at https://www.cbp.gov/document/guidance/ace-dis-xml-schema in the Supporting Documents tab.

Examples of a submission package, a response and a status notification are:
- **DocumentSubmissionPackage (Input)**
- **MessageValidationResponse   (Output)**
- **DocumentReviewResponse   (Status Notification Output Only)**

Basic Level Message Construction Example

The example below demonstrates the four main parts if a DIS Submission

```
<DIS :MessageEnvelope xmlns :DIS= »http ://cbp.dhs.gov/DIS » … >

        <DIS:MessageHeader>
            … MessageHeader data elements go here
        </DIS:MessageHeader>

        <DIS:MessageBody>
                <DIS:DocumentSubmissionPackage>
                    … DocumentSubmissionPackage data elements go here
                </DIS:DocumentSubmissionPackage >
        </DIS:MessageBody>

</DIS:MessageEnvelope>
```

MessageEnvelope

The MessageEnvelope element is the outermost element. All other XML elements are contained within the Message Envelope as child elements. MessageEnvelope applies to all transaction types.

Designation: Mandatory

Max Occurrences: One

Parent Element: None

Example #1 MessageEnvelope – Input:

```
<DIS:MessageEnvelope xmlns:DIS="http://cbp.dhs.gov/DIS"
xmlns:xsd="http://www.w3.org/2001/XMLSchema"
xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">

        … all other XML Code

</DIS:MessageEnvelope>
```

Example #2 MessageEnvelope – Input:

```
<DIS:MessageEnvelope xmlns:DIS="http://cbp.dhs.gov/DIS"
xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
xsi:schemaLocation="http://cbp.dhs.gov/DIS ../MessageEnvelope.xsd">

        … all other XML Code

</DIS:MessageEnvelope>
```

Note: Multiple declarations can be made in the Message Envelope. Example #2 contains a declaration for the schema location. In this case the XML editor would look for the Schema XSD files one folder up from the DIS XML file (xsi:schemaLocation=http://cbp.dhs.gov/DIS ../MessageEnvelope.xsd). This makes it easy to validate the DIS transaction against the Schema.

Example MessageEnvelope - Response/Output:

Please see APPENDIX B, NOTE 9 for changes

The NEW namespace style of MessageEnvelope in the Response/Output XML is changed to explicitly have the DIS: namespace prefix to the MessageEnvelope and all XML elements (described in NOTE 9 in Appendix B) instead of relying on default namespace. (The XSD is NOT changing). Please note the updated XML response in the ROOT element and explicit XML declaration at top.

The MessageEnvelope will always be returned like shown in box below regardless of how it is submitted in the input. There is also a line break (CR LF) after every XML element in consistent manner (which was inconsistent before to be after some elements and not others).

 NEW namespace style:

```xml
<?xml version="1.0" encoding="UTF-8"?>
<DIS:MessageEnvelope xmlns:DIS="http://cbp.dhs.gov/DIS"
xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">

        … all other XML Code

</DIS:MessageEnvelope>
```

OLD namespace style (did not have DIS: prefix in MessageEnvelope and no XML declaration at the top)

```xml
<MessageEnvelope xmlns="http://cbp.dhs.gov/DIS" xmlns:DIS="http://cbp.dhs.gov/DIS"
xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">

        … all other XML Code

</MessageEnvelope>
```

MessageHeader

Applies to all transaction types. CBP will create its own MessageHeader on response/output transaction types.

MessageHeader from the input transaction will be returned to the transmitter in the ProcessedMessageHeader block. See section entitled MessageValidationResponse.

Designation: Mandatory
Max Occurrences: One
Parent Element: MessageEnvelope

The MessageHeader element contains the following child elements:

MessageHeader Data Elements	Length / Type	Desig	Description	Note
MessageID	1-50AN	M	Unique ID generated by transmitter	
MessageType	1-50A	M	Possible values: • DocumentSubmission • DocumentValidationResponse • DocumentReviewResponse	1
SentDateTime	1-30D	M	Time message is sent by the transmitter in Eastern Time Zone. Must be in UTC Format. See Note 2	2
TransmitterID	3-3AN	M	Three character Filer Code corresponding to the ABI "A" Record Filer Code	
TransmitterSiteCode	4-4N	M	Four digit Port Code corresponding to the ABI "A" Record Port Code	
PreparerID	3-3AN	M	Three character Filer Code corresponding to the ABI "B" Record Filer Code	
PreparerSiteCode	4-4N	M	Four digit Port Code corresponding to the ABI "B" Record Port Code	
Comment	1-100AN	C	Optional for input transactions. CBP will return "CBP" in this field on all output transactions.	

NOTE 1:

For Message Type Options, refer to Appendix D for XSD Enumerated Value Definitions.

NOTE 2:

UTC Date/Time Formats:

Here are two valid formats for UTC Date/Time:

- 2015-01-28T16:07:57-05:00
- 2015-01-28T16:07:57Z

In the first example, the -05:00 indicates that the time reported in US Eastern time is offset by five hours from UTC time (GMT). The second example provides a way to avoid the offset. There are other valid UTC time formats. More information on UTC date and time can be found by performing an internet search.

Note that daylight savings time calculations should be accounted for to ensure that submitted dates are always valid.

MessageHeader Example:

```
<DIS :MessageHeader>
      <DIS :MessageID>1005997</DIS :MessageID>
      <DIS :MessageType>DocumentSubmission</DIS :MessageType>
      <DIS :SentDateTime>2010-07-28T09 :30 :47-05 :00</DIS :SentDateTime>
      <DIS:TransmitterID>ABC</DIS:TransmitterID>
      <DIS:TransmitterSiteCode>3001</DIS:TransmitterSiteCode>
      <DIS:PreparerID>ABC</DIS:PreparerID>
      <DIS:PreparerSiteCode>3001</DIS:PreparerSiteCode>
</DIS:MessageHeader>
```

MessageBody

Designation: Mandatory
Max Occurrences: One
Parent Element: MessageEnvelope

The MessageBody element is a child of the MessageEnvelope element. It contains one of the two child elements listed below.

Only one submission package may be used in a DIS transaction. Multiple documents may be referenced from within the submission package. Examples of full DIS XML transactions (Input and Output) can be found in the last section of this DIS IG.

The following input and output child elements are available for DIS transactions:

- DocumentSubmissionPackage   (Input)

- MessageValidationResponse   (Output)

- DocumentReviewResponse   (Status Notification – Output Only)

MessageBody Example:

```
Input

<DIS:MessageBody>
        <DIS:DocumentSubmissionPackage>
                … more XML Code
        </DIS:DocumentSubmissionPackage>
</DIS:MessageBody>

Output

<DIS:MessageBody>
        <DIS:MessageValidationResponse>
                … more XML Code
        </DIS:MessageValidationResponse>
</DIS:MessageBody>
```

DocumentSubmissionPackage – (Input Only)

Designation: Mandatory
Max Occurrences: One
Parent Element: MessageBody

The DocumentSubmissionPackage is a child of the MessageBody element. It contains several child and subchild elements providing all of the document specific data. Unless otherwise noted in the description, it is assumed that the maximum occurrence of a data element or data block is one.

The values indicated in the below table column "Length+Type" are the maximum allowable lengths for each field. In the actual Trade data submission the data field lengths submitted may be lesser than the maximum size, but are not allowed to exceed the max lengths.

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
SubmittedToPortCode	4N	O	**Parent**: *DocumentSubmissionPackage* Four digit port code where the document is being submitted. If the document is related to an entry, this would likely be the Port of Entry	
ActionCode	1-20A	M	**Parent**: *DocumentSubmissionPackage* Values are: • ADD • DELETE • REPLACE When using the DELETE Action Code, set the DocPreviouslySubmitted data element to "Y" to avoid having to include the encoded document being deleted. Please see NOTE 8 in Appendix B for validation rule enforced for ActionCode. See Appendix D for XSD Enumerated Value Definitions.	
PackageIdentifier	--	C	**Parent**: *DocumentSubmissionPackage* Accepts no specific data. Accepts child data elements only	

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
			Note: *PackageIdentifier* is **mandatory** for CBMA submissions	
PackageCategory	Fixed list of values	C	**Parent:** *PackageIdentifier* Values are: • **CBMA** for the Craft Beverages Program and • **NAFTA** for NAFTA and • **USMCA** for USMCA and • **GEN** for all other scenarios Note: This element is mandatory only if parent <PackageIdentifier> is supplied	
PackageName	0-50A	O	**Parent:** *PackageIdentifier* Optional free-form text indicating a name for this submitted package. Allows tracking of each submission 'package' (i.e. a single submission package of documents)	
ImporterOfRecordNbr	1-50AN	C	**Parent:** *PackageIdentifier* Mandatory (required) when PackageCategory = CBMA; Optional otherwise unless required for other specified programs	5
TradeTransaction	0	C	**Parent**: *DocumentSubmissionPackage* Accepts no specific data. Accepts child data elements only	
TransactionCategory	1-20A	M	**Parent**: *TradeTransaction* Values are: • SINGLE_TXN • CONTINUOUS Use SINGLE_TXN when supplying a Filer Code and Entry Number. Otherwise use CONTINUOUS. See Appendix D for XSD Enumerated Value Definitions.	
Entry	0	O	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
EntryNumber	8N	C	**Parent**: *Entry* Required when submitted document supports and entry or entry summary	

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
Filer	3AN	C	**Parent**: *Entry* Required when submitted document supports and entry or entry summary	
Bill	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
SCAC	20AN	C	**Parent**: *Bill* Required when submitted document supports a bill of lading. This is the Bill Issuer Code (when submitting bill data)	
BillNumber	100X	C	**Parent**: *Bill* Required when submitted document supports a bill of lading. Used to supply Bill number.	
HouseBillNumber	20X	O	**Parent**: *Bill* Optional when submitted document supports a bill of lading. Used to supply house bill number.	
ReferenceNumber	50X	O	**Parent**: *Bill* Optional filer-defined reference number. Optional when submitted document supports a bill of lading.	
FTZAdmissionNbr	100AN	C	**Parent**: *TradeTransaction* Required when submitted document supports an FTZ admission. Used to supply FTZ Admission number.	
ITN	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. Might be applicable when submitted document supports AES export transaction.	
ITN	100AN	C	**Parent**: *ITN* Required only when submitted document sends ITN data. Used to supply ITN number.	
ReferenceNumber	50AN	O	**Parent**: *ITN* Optional when submitted document supports an AES export transaction.	

U.S. Customs and Border Protection

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
XTN	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. Might be applicable when submitted document supports AES export transaction.	
XTN	100AN	C	**Parent**: *XTN* Required only when submitted document sends XTN data. Used to supply XTN number.	
ReferenceNumber	50AN	O	**Parent**: *XTN* Optional filer-defined reference number. Optional when submitted document supports an AES export transaction.	
ISFNumber	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
ISFNumber	100AN	C	**Parent**: *ISFNumber* Used to supply the ISF number related to Importer Security Filing (**ISF**) **Bond**	
Filer	20AN	C	**Parent**: *ISFNumber* Filer code	
CBPRequest	0	M	**Parent**: *DocumentSubmissionPackage* Accepts no specific data. Accepts child data elements only	
CBPRequestID	1-30AN	M	**Parent**: *CBPRequest* Supply the Action Identification Number from the UC transaction E2 record. If not available use: • UNSOLICITED • UNKNOWN	1
CBPRequestType	1-30AN	O	**Parent**: *CBPRequest* Refer to Appendix D for XSD Enumerated Value Definitions	
CBPRequestDate	1-30D	O	**Parent**: *CBPRequest* Request Date in UTC Format	

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
DocumentData	0	M	**Parent**: *DocumentSubmissionPackage* Accepts no specific data. Accepts child data elements only. This entire block can be repeated multiple times if submitting multiple documents in the same transaction. Repeat entire block once per document.	
DocumentHeader	0	M	**Parent**: *DocumentData* Accepts no specific data. Accepts child data elements only.	
DocumentID	1-50AN	M	**Parent**: *DocumentHeader* Must be unique and never repeated by the same transmitter	
DocumentLabel	1-100AN	M	**Parent**: *DocumentHeader* See Note 2 for complete list. Available for import from CommonData.xsd	2
CompleteFileName	1-200AN	M	**Parent**: *DocumentHeader* Must be unique and never repeated by the same transmitter Note: The following special characters should **not** be used in the CompleteFileName: &, ', <, >, ", '%' and /	
FileExtensionType	1-4AN	M	**Parent**: *DocumentHeader* See Note 3 for acceptable file extension types. Additionally, see Appendix D for XSD enumerated value definitions	3
DocPreviouslySubmitted	1A	C	**Parent**: *DocumentHeader* Must be Y or N.	
DocumentDescription	1-50AN	O	**Parent**: *DocumentHeader*	
GovtAgencyList	0	M	**Parent**: *DocumentData* Accepts no specific data. Accepts child data elements only	
GovtAgency	1-20AN	C	**Parent**: *GovtAgencyList*	4
Comment	1-100AN	O	**Parent**: *DocumentData*	

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
OptionalData	0	O	**Parent**: *DocumentData* Accepts no specific data. Accepts child data elements only. All data elements under OptionalData are used to supply optional document specific data at the trade partner's discretion.	
InvoiceData	0	O	**Parent**: *OptionalData* Accepts no specific data. Accepts child data elements only	
InvoiceNbr	1-50AN	O	**Parent**: *InvoiceData*	
InvoiceType	1-50AN	O	**Parent**: *InvoiceData* See Appendix D for XSD Enumerated Value Definitions	
InvoiceLineItemData	0	O	**Parent**: *InvoiceData* Accepts no specific data. Accepts child data elements only	
InvoiceLineNbr	1-3AN	O	**Parent**: *InvoiceLineItemData*	
CommodityData	0	O	**Parent**: *InvoiceLineItemData* Accepts no specific data. Accepts child data elements only	
HTSNumber	4-10N	O	**Parent**: *CommodityData*	
CommodityDescription	1-200AN	O	**Parent**: *CommodityData*	
CountryOfOrigin	1-50AN	O	**Parent**: *CommodityData*	
PortOfLading	4N	O	**Parent**: *CommodityData* Foreign Port of Lading	
PortOfEntry	4N	O	**Parent**: *CommodityData*	
TradeParties	0	O	**Parent**: *CommodityData* Accepts no specific data. Accepts child data elements only	

DocumentSubmission Package Data Elements	Length +Type	Desig	Description	Note
TradeParty	0	O	**Parent**: *TradeParties* Accepts no specific data. Accepts child data elements only	
TradePartyID	100	O	**Parent**: *TradeParty* IR Number of Trade Party. Dashes are optional. CBPRequestType	
TradePartyType	20AN	O	**Parent**: *TradeParty* See Appendix D for XSD Enumerated Value Definition	
DocumentObject	Base-64 encoded binary	C	**Parent**: *DocumentData* Used to supply encoded document. Document should be encoded as a base64 string. Do not exceed Max. Message size (noted on Page 6) Do not include DocumentObject when using the DELETE Action Code. Set the DocPreviouslySubmitted data element to "Y" and DocumentObject is not required.	

NOTE 1:
CBPRequestID

Use UNSOLICITED when sending documents prior to a receiving a request for documents.

Use UNKNOWN when sending documents and no Action ID was provided in the request for documents.

NOTE 2:
See Appendix A for List of Supported Documents and their Specific Metadata Validations

NOTE 3:
Preferred Values for FileExtensionType
Below are the preferred file types for DIS transactions submitted to CBP (this is not an exclusive list and CBP will not reject file types that maybe of other formats).

• PDF
• GIF

- PNG
- JPG
- JPEG
- XLS, XLSX (for specific programs such as CBMA)

Additional file types (besides the list above) may need to be used for specific business scenarios. Using other proprietary file types would mean the users need a corresponding viewer to view or open such files, and those viewers may not be readily available to the users.

TIF or TIFF file formats are strongly discouraged, since there are multiple proprietary flavors of these formats that may have display issues.

NOTE 4:

See Appendix A for List of Supported Documents and their Specific Metadata Validations. If a non-owning agency needs to see the document being submitted, please provide that agency(ies) code here.

NOTE 5:

Expected formats for the Importer of Record Number are:

NN-NNNNNNNXX	Internal Revenue Service (IRS) Number
YYDDPP-NNNNN	CBP Assigned Number
NNN-NN-NNNN	Social Security Number

In these codes, N = number, X = alphanumeric, YY = the last two digits of the calendar year when the number is assigned, DDPP = the district/port code where the number is assigned.

Message Validation Response – (Output Only)

Designation: Mandatory
Max Occurrences: One
Parent Element: MessageBody

The DocumentSubmissionPackage is a child of the MessageBody element. It contains several child and subchild elements providing all of the document specific data.

MessageValidation Response Data Elements	Length +Type	Desig	Description	Note
MessageLevelResult	0	M	**Parent**: *MessageValidationResponse* Accepts no specific data. Accepts child data elements only	
ProcessedMessageHeader	0	M	**Parent**: *MessageLevelResult* Accepts no specific data. Accepts child data elements only. This block is used to return the MessageHeader and all of its child data elements supplied by the transmitter from the input transaction	
MessageID	1-50AN	M	**Parent**: *ProcessedMessageHeader* MessageID supplied by transmitter	
MessageType	1-50AN	M	**Parent**: *ProcessedMessageHeader* DocumentSubmission is only supported message type for input at this time.	
SentDateTime	1-50D	M	**Parent**: *ProcessedMessageHeader* SentDateTime supplied by transmitter	
TransmitterID	3AN	M	**Parent**: *ProcessedMessageHeader* TransmitterID supplied by transmitter	
TransmitterSiteCode	4N	M	**Parent**: *ProcessedMessageHeader* TransmitterSiteCode supplied by transmitter	
PreparerID	3AN	M	**Parent**: *ProcessedMessageHeader* PreparerID supplied by transmitter	

MessageValidation Response Data Elements	Length +Type	Desig	Description	Note
PreparerSiteCode	4N	M	**Parent**: *ProcessedMessageHeader* PreparerSiteCode supplied by transmitter	
MessageProcessingResult	0	M	**Parent**: *MessageLevelResult*	
ProcessingEvent	1-50AN	M	**Parent**: *MessageProcessingResult* See Note 1 for possible values	1
ProcessingStatus	1-6AN	M	**Parent**: M*essageProcessingResult* Values are: • PASSED • FAILED	1
ProcessingStatusSummary Text	1-2000AN	O	**Parent**: *MessageProcessingResult*	
ProcessingLogText	1-2000AN	M	**Parent**: *MessageProcessingResult* One or more words describing success or failure of the transaction	
DocumentLevelResult	0	C	**Parent**: *MessageValidationResponse* Accepts no specific data. Accepts child data elements only. This block will be repeated if multiple documents were submitted in the same transaction. Repeats one time per document.	
ProcessedDocumentHeader	0	C	**Parent**: *DocumentLevelResult* Accepts no specific data. Accepts child data elements only. This block will return the data from the input transaction's DocumentHeader block	
DocumentID	1-50AN	C	**Parent**: *ProcessedDocumentHeader* Returned from input transaction	
DocumentLabel	1-100AN	C	**Parent**: *ProcessedDocumentHeader* Returned from input transaction	
CompleteFileName	1-100AN	C	**Parent**: *ProcessedDocumentHeader* Returned from input transaction	
FileExtensionType	1-4AN	C	**Parent**: *ProcessedDocumentHeader* Returned from input transaction	

MessageValidation Response Data Elements	Length +Type	Desig	Description	Note
DocumentDescription	1-255AN	C	**Parent**: *ProcessedDocumentHeader* Returned from input transaction	
PackageIdentifier	0	C	**Parent**: *DocumentSubmissionPackage* Accepts no specific data. Accepts child data elements only Note: *PackageIdentifier* is **mandatory** for CBMA submissions. It can be **empty** for non-CBMA.	
PackageCategory	1-50AN	C	**Parent:** *PackageIdentifier*	
PackageName	1-50AN	O	**Parent:** *PackageIdentifier* Optional free-form text indicating a name for this submitted package. Allows tracking of each submission 'package' (i.e. a single submission package of documents)	
ImporterOfRecordNbr	1-50AN	C	**Parent:** *PackageIdentifier* Mandatory (required) when PackageCategory = CBMA; Optional otherwise unless required for other specified programs	
TradeTransaction	0	C	**Parent**: *DocumentLevelResult* Accepts no specific data. Accepts child data elements only. This block will return the data from the input transaction's TradeTransaction block	
TransactionCategory	1-20AN	O	**Parent**: *TradeTransaction* Returned from input transaction	
Entry	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. This block will return the data from the input transaction's Entry block	
EntryNumber	8N	C	**Parent**: *Entry* Returned from input transaction	
Filer	3AN	C	**Parent**: *Entry* Returned from input transaction	

U.S. Customs and Border Protection

MessageValidation Response Data Elements	Length +Type	Desig	Description	Note
Bill	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
SCAC	20AN	C	**Parent**: *Bill* Required when submitted document supports a bill of lading. This is the Bill Issuer Code (when submitting bill data)	
BillNumber	100X	C	**Parent**: *Bill* Required when submitted document supports a bill of lading. Used to supply Bill number.	
HouseBillNumber	20X	O	**Parent**: *Bill* Optional when submitted document supports a bill of lading. Used to supply house bill number.	
ReferenceNumber	50X	O	**Parent**: *Bill* Optional filer-defined reference number. Optional when submitted document supports a bill of lading.	
FTZAdmissionNbr	100AN	C	**Parent**: *TradeTransaction* Required when submitted document supports an FTZ admission. Used to supply FTZ Admission number.	
ITN	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. Might be applicable when submitted document supports AES export transaction.	
ITN	100AN	C	**Parent**: *ITN* Required only when submitted document sends ITN data. Used to supply ITN number.	
ReferenceNumber	50AN	O	**Parent**: *ITN* Optional when submitted document supports an AES export transaction.	
XTN	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. Might be applicable when submitted document supports AES export transaction.	

MessageValidation Response Data Elements	Length +Type	Desig	Description	Note
XTN	100AN	C	**Parent**: *XTN* Required only when submitted document sends XTN data. Used to supply XTN number.	
ReferenceNumber	50AN	O	**Parent**: *XTN* Optional filer-defined reference number. Optional when submitted document supports an AES export transaction.	
ISFNumber	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
ISFNumber	100AN	C	**Parent**: *ISFNumber* Used to supply the ISF number related to Importer Security Filing (**ISF**) **Bond**	
Filer	20AN	C	**Parent**: *ISFNumber* Filer code	
DocumentProcessingResult	0	C	**Parent**: *DocumentLevelResult* Accepts no specific data. Accepts child data elements only.	
ProcessingEvent	1-50AN	M	**Parent**: *DocumentProcessingResult* See Note 1 for possible values	1
ProcessingStatus	1-2000AN	M	**Parent**: *DocumentProcessingResult* Values are: • PASSED • FAILED	1
ProcessingLogText	1-255AN	M	**Parent**: *DocumentProcessingResult* One or more words describing success or failure of the transaction	

<u>NOTE 1:</u>

Values for ProcessingEvent:

- INITIAL_VALIDATION (Current Use)
- DETAILED_VALIDATION (Future Use)
- REVIEW (Future Use)
- OTHER (Future Use)

Values for ProcessingStatus:

- PASSED
- FAILED

See Appendix D for XSD Enumerated Value Definitions

Document Review Message (Status Notification – Output Only)

Designation: Mandatory
Max Occurrences: One
Parent Element: MessageBody

The DocumentReviewResponse is a child of the MessageBody element. It contains several child and subchild elements.

See Appendix D for some XSD Enumerated Value Definitions for further clarification of possible value.

DocumentReview Response Data Elements	Length +Type	Desig	Description	Note
DocumentHeader	0	M	**Parent**: *DocumentReviewResponse* Accepts no specific data. Accepts child data elements only	
DocumentID	1-50AN	M	**Parent**: *DocumentHeader* Returned from original DIS transaction	
DocumentLabel	1-100AN	M	**Parent**: *DocumentHeader* Returned from original DIS transaction.	
CompleteFileName	1-200AN	M	**Parent**: *DocumentHeader* Returned from original DIS transaction.	
FileExtensionType	1-4AN	M	**Parent**: *DocumentHeader* Returned from original DIS transaction.	
DocumentDescription	1-50AN	O	**Parent**: *DocumentHeader*	
SubmittedToPortCode	4N	O	**Parent**: *DocumentReviewResponse* Returned from original DIS transaction.	
TradeTransaction	0	O	**Parent**: *DocumentReviewResponse* Accepts no specific data. Accepts child data elements only. This block will return the data from the input transaction's TradeTransaction block	

DocumentReview Response Data Elements	Length +Type	Desig	Description	Note
TransactionCategory	1-20AN	O	**Parent**: *TradeTransaction* Returned from original DIS transaction	
Entry	0	O	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. This block will return the data from the original DIS transaction's Entry block	
EntryNumber	8N	O	**Parent**: *Entry* Returned from original DIS transaction	
Filer	3AN	O	**Parent**: *Entry* Returned from original DIS transaction	
Bill	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
SCAC	20AN	C	**Parent**: *Bill* Required when submitted document supports a bill of lading. This is the Bill Issuer Code (when submitting bill data)	
BillNumber	100X	C	**Parent**: *Bill* Required when submitted document supports a bill of lading. Used to supply Bill number.	
HouseBillNumber	20X	O	**Parent**: *Bill* Optional when submitted document supports a bill of lading. Used to supply house bill number.	
ReferenceNumber	50X	O	**Parent**: *Bill* Optional filer-defined reference number. Optional when submitted document supports a bill of lading.	
FTZAdmissionNbr	100AN	C	**Parent**: *TradeTransaction* Required when submitted document supports an FTZ admission. Used to supply FTZ Admission number.	

DocumentReview Response Data Elements	Length +Type	Desig	Description	Note
ITN	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. Might be applicable when submitted document supports AES export transaction.	
ITN	100AN	C	**Parent**: *ITN* Required only when submitted document sends ITN data. Used to supply ITN number.	
ReferenceNumber	50AN	O	**Parent**: *ITN* Optional when submitted document supports an AES export transaction.	
XTN	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only. Might be applicable when submitted document supports AES export transaction.	
XTN	100AN	C	**Parent**: *XTN* Required only when submitted document sends XTN data. Used to supply XTN number.	
ReferenceNumber	50AN	O	**Parent**: *XTN* Optional filer-defined reference number. Optional when submitted document supports an AES export transaction.	
ISFNumber	0	C	**Parent**: *TradeTransaction* Accepts no specific data. Accepts child data elements only	
ISFNumber	100AN	C	**Parent**: *ISFNumber* Used to supply the ISF number related to Importer Security Filing (**ISF**) **Bond**	
Filer	20AN	C	**Parent**: *ISFNumber* Filer code	

DocumentReview Response Data Elements	Length +Type	Desig	Description	Note
DocumentReviewResult	0	O	**Parent**: *DocumentReviewResponse* Accepts no specific data. Accepts child data elements only. This block contains data elements that explain why a CBP Officer is rejecting the document back to the trade partner	
ProcessingEvent	1-50AN	O	**Parent**: *DocumentReviewResult* Will always be REVIEW	
DocumentReviewStatus	1-20AN	O	**Parent**: *DocumentReviewResult* Can be REJECTED or ACCEPTED or UNDER_REVIEW	
DocumentReviewComment	1-4000AN	O	**Parent**: *DocumentReviewResult* Free form comments entered by the CBP reviewing officer	
DocumentRejectReason	1-50AN	O	**Parent**: *DocumentReviewResult* See Note 1 for list of values.	1

NOTE 1:
Current set of values for DocumentRejectReason:

- POOR_IMAGE_QUALITY
- INCORRECT_METADATA_ASSOCIATION
- INCORRECT_DOCUMENT_RECEIVED
- NO_ASSOCIATED_TRANSACTION
- INCOMPLETE_DOCUMENT_SET
- INCORRECT_CBP_REQUEST
- OTHER

Additional values may be added as requested by trade or CBP users.

APPENDIX A: List of Supported Documents

This section provides the list of supported documents in DIS, an overview of the associated metadata elements, and any validations that are performed by the system. Any mandatory requirements for a document are also indicated.

Documents that may be submitted to DIS via Secure FTP, Secure Web Services, MQ Queues, or Email

Agency Code	Official Document Name/Description	Document Type Required for email and XML to DIS	Document Label Code Required for XML to DIS	DocCode Required for email to DIS	Metadata/Comments (O = Optional)
Agricultural Marketing Service (AMS)					
AMS	Foreign Government Export Certificate (AMS-MO2 (Various Foreign Government Form Numbers))	CERTIFICATE	AMS_FOREIGN_GOVT_EXPORT	AMS01	NO METADATA LISTED
AMS	Request for Inspection, Reinsertion, Appeal Inspection	DOCUMENT	AMS_FV_237_REQ_FOR_INSP	AMS02	The use of this document in DIS is limited to entries for over-the-counter processing (Non-ABI submission) where PGA Message set data is otherwise required.
AMS	Application for Inspection	DOCUMENT	AMS_FV_356_APPL_FOR_INSP	AMS03	The use of this document in DIS is limited to entries for over-the-counter processing (Non-ABI submission) where PGA Message set data is otherwise required.
AMS	Importers Exempt Commodity Form	FORM	AMS_FV_6_IMPORTERS_EXEMPT	AMS04	The use of this document in DIS is limited to entries for over-the-counter processing (Non-ABI submission) where PGA Message set data is otherwise required.
AMS	Notification of Entry	DOCUMENT	AMS_FV_357_NOTIFICATION_OF_ENTRY	AMS05	The use of this document in DIS is limited to entries for over- the- counter processing (Non-ABI submission) where PGA Message set data is otherwise

APPENDIX B: General Guidelines for Documents Submitted to DIS via Email

These *general* guidelines are for all document submissions via email except for Export Manifest, Vessel and Used Self-Propelled Vehicle Documents.

NOTE: Vessel document submission may be found in APPENDIX C of this document, Export Manifest submission guidelines may be found at http://www.cbp.gov/trade/ace/export-manifest, and Used Self-Propelled Vehicle Documents submission guidelines can be found in APPENDIX E of this document.

Send email to: docs@cbp.dhs.gov

Email Subject Line: CAT=GEN; ENTRY_NBR=12345678; FILER_CD=ABC; ACTION=ADD or DELETE, or REPLACE

OR

CAT=GEN; BOL_NBR=123456789100; SCAC=ABCD; ACTION=ADD or DELETE, or REPLACE

OR

CAT=GEN; ITN=X12345678910111; ACTION=ADD or DELETE, or REPLACE

OR

CAT=GEN; ADMISSION_NBR=153000117XX023235; ACTION= ADD or DELETE, or REPLACE

OR

CAT=CBMA; ENTRY_NBR=12345678; FILER_CD=ABC; ACTION=ADD or DELETE, or REPLACE

OR

CAT=USMCA; ENTRY_NBR=12345678; FILER_CD=ABC; ACTION=ADD or DELETE, or REPLACE

OR

CAT=NAFTA; ENTRY_NBR=12345678; FILER_CD=ABC; ACTION=ADD or DELETE, or REPLACE

NOTE 1 (for CAT usage):
CAT must always equal either **GEN** (for General) or **USMCA** (for USMCA) or **CBMA** for (Craft Beverage Modernization Act) or **NAFTA** (for NAFTA) at this time. Additional categories shall be specified in DIS implementations guides as they are published over time.

NOTE 2 (for Doc Code and Attachment usage):
DocCode is a unique code assigned by CBP for each Document supported in DIS. Please see Appendix A for the list of Supported Documents and their Specific Metadata Validations. Please use Doc-Codes that are approved for the context or category you are submitting documents for.
Attachments File-Naming convention: DocCode-AnyFileName.pdf
EXAMPLE: CBP01-EntryABC12345678Invoice.pdf

NOTE 3 (for CBMA):

The CBMA Spreadsheet (CBP155), MUST be linked to an actual entry number. The other two CBMA docs – the Controlled Group spreadsheet (CBP154) and the Assignment Certification (CBP156) – are linked to the IOR, and in those cases, a dummy entry number can be used. CBP 154 and CBP 155 should be uploaded as Excel file types.

NOTE 4 (for Drawback):

For Drawback Claim Number, use 'ENTRY_NBR and FILER_CD'.

NOTE 5 (for NAFTA):

When submitting a NAFTA document, please use CAT = NAFTA.

NOTE 6 (for USMCA):

When submitting a USMCA document, please use CAT = USMCA.
The entry number and filer code may be optional depending on the submitted document type, or business process. Please check with the applicable business teams for guidance.

Body:
START_DATA
AGENCY_CD=Conditional (If a non-owning agency needs to review a document, provide their agency code here. If more than one non-owning agency needs to review the document(s), provide multiple agency codes, separated by semi-colon (ex. ABC;DEF;XYZ). Please find all agency codes at http://www.cbp.gov/document/guidance/appendix-v-government-agency-codes). (Note: COM indicates 'COMMON', i.e. Common Documents NOT Owned by any *Particular* Agency).
TRANSMITTER_FILER_CD=Conditional (Required for Filers with valid filer codes)
TRANSMITTER_NAME=Mandatory (Name of company)
CENTER_TEAM=TEAM_ABC Conditional (Required when responding to CEEs)
PORT_CD=(4 digit port code) Conditional (Required when responding to CEEs)
IOR_NBR=Conditional (Required when responding to CEEs)
ACE_ACTION_ID=Conditional (Required at time of Post Release)
LICENSE_OR_PERMIT_NBR=Conditional (Required when submitting a license or DEA01)
TRANSACTION_IDENTIFICATION_NBR=Conditional (Required for DEA02-DEA04)
HOUSE_BOL_NBR=Conditional (Required when sending Master BOL in subject line)
BROKER_REF_NBR=Optional (For future use)
POC_INFO=Optional (Name and Phone Number)
COMMENT=Optional (Any clarification/remark)
RETURN_EMAIL_ADDRESS=Optional (if different than sender email address)
END_DATA
Sender Signature/Company Stationary: (Optional) Company Name, Address, Phone Number

Here is the Auto-response from DIS that the sender will receive upon email submission:
U.S. Customs & Border Protection (CBP) has received your e-mail to the Document Imaging System (DIS) Mailbox for Document Submissions. This auto-reply serves as a confirmation of receipt of your email only. It does not indicate acceptance or correctness of the submitted data or documents. Filers are to keep this e-mail to facilitate audit and tracking of submitted data and documents. Please report any issues to CBP if you do not receive this auto-response within an hour for every email submission to the DIS mailbox.

NOTE 7:

- Total email size including all attachments must not exceed **10MB**
- For larger documents please breakup into multiple documents and submit multiple emails for the same Entry or Bill (i.e. send the same email subject line with additional documents)
- Separate the Bill number and the SCAC. Separate the Entry Number and the Filer Code
- The file name must begin with 'DocCode-' (where DocCode is a unique code for the document)
- Do not leave a space between the "-"(dash) in 'DocCode-'and the rest of the file name
- Email Responses will be sent to the sender's email address if a return email address is not provided
- The auto-response message ONLY verifies that the email has been <u>received</u> via the email, it does NOT indicate that email contents including the document attachments are correct/acceptable

NOTE 8: The mandatory/optional conditions for data elements in the email body are given *inside* the email body for convenience. Please see Appendix A for actual validations performed by the system.

NOTE 9:

Below are the <u>preferred</u> file types for DIS transactions submitted to CBP (this is not an exclusive list and CBP will not reject file types that maybe of other formats).

- PDF
- GIF
- PNG
- JPG
- JPEG
- XLS, XLSX (for specific programs such as CBMA)

Additional file types (besides the list above) may need to be used for specific business scenarios. Using other proprietary file types would mean the users need a corresponding viewer to view or open such files, and those viewers may not be readily available to the users.

TIF or TIFF file formats are strongly discouraged, since there are multiple proprietary flavors of these formats that may have display issues.

NOTE 10 (applies to XML and email):

Expected formats for the Importer of Record Number are:

      NN-NNNNNNNXX   Internal Revenue Service (IRS) Number

      YYDDPP-NNNNN   CBP Assigned Number

      NNN-NN-NNNN   Social Security Number

In these codes, N = number, X = alphanumeric, YY = the last two digits of the calendar year when the number is assigned, DDPP = the district/port code where the number is assigned.

NOTE 11(applies to XML and email):

Permitted values of ActionCode field are: ADD, DELETE or REPLACE. Any other values will be rejected.

NOTE 12 (for XML only):

The namespace for the root element MessageEnvelope in the Response/Output has changed to be explicit as per XSD (NOTE: there is no change to the XSD. Notice the explicit **DIS:** in front of MessageEnvelope and all the other XML elements. This will introduce consistency in namespace style of all elements to have **DIS:** prefix

Examples are below of what has changed.

<?xml version="1.0" encoding="UTF-8"?>

<**DIS**:MessageEnvelope xmlns:DIS="http://cbp.dhs.gov/DIS"
xmlns:xsi="http://www.w3.org/2001/XMLSchema-
instance">

…..**… all other XML text**….

</**DIS**:MessageEnvelope>
…
…

<**DIS**:ProcessedMessageHeader>….**any XML text**</DIS:ProcessedMessageHeader>

<**DIS**:ProcessedDocumentHeader>….**any XML text** </DIS:ProcessedDocumentHeader>

<**DIS**:TradeTransaction>….**XML text</** DIS:TradeTransaction>

APPENDIX C: Guidelines for Vessel Documents Submitted to DIS via Email

These guidelines are for **Vessel** document submissions via email.

NOTE: *General* document submission may be found in APPENDIX B of this document, Export Manifest submission guidelines may be found at http://www.cbp.gov/trade/ace/export-manifest, and Used Self-Propelled Vehicle Documents submission guidelines can be found in APPENDIX E of this document.

Send email to: docs@cbp.dhs.gov
Email Subject Line: CAT=GEN; IMO_NBR=1234567; ACTION=ADD or DELETE, or REPLACE
                                        OR
                                CAT=GEN; OFCL_RGSTRTN_NBR= (for future use); ACTION=ADD or DELETE, or REPLACE

NOTE 1:
CAT must always equal GEN (for General) at this time. Additional categories shall be specified in DIS implementations guides as they are published over time.
Attachments: File Naming convention = DocCode-AnyFileName.pdf
EXAMPLE: CBP140-1234567SOLAS3.pdf

NOTE 2:
DocCode is a unique code assigned by CBP for each Document supported in DIS. Please see Appendix A for the list of Supported Documents and their Specific Metadata Validations.

NOTE 3:
Please see APPENDIX-A for any detailed metadata conditional requirements when submitting specific documents. A summary guidance is provided below for quick reference.

Body:

START_DATA

AGENCY_CD=CBP (Conditional. If a non-owning agency needs to review a document, provide their agency code here. If more than one non-owning agency needs to review the document(s), provide multiple agency codes, separated by semi-colon (ex. ABC;DEF;XYZ). Please find all agency codes at http://www.cbp.gov/document/guidance/appendix-v-government-agency-codes). (Note: COM indicates 'COMMON', i.e. Common Documents NOT Owned by any *Particular* Agency).

TRANSMITTER_FILER_CD=Conditional (Required for Filers with valid filer codes)

TRANSMITTER_NAME=Mandatory (Name of company)

SCAC=Conditional (If available, required when submitting IMO documents)

LICENSE_OR_PERMIT_NBR=Conditional (Required when submitting a license)

CERTIFICATE_NUMBER=Mandatory (Required when submitting a Certificate)

ISSUE_DATE=Mandatory (Please see Appendix A for conditions)

EXPIRATION_DATE=Mandatory (Please see Appendix A for conditions)

GROSS_TONNAGE=Conditional (Required when submitting Tonnage Certificate)

NET_TONNAGE=Conditional (Required when submitting Tonnage Certificate)

POC_INFO=Optional (Name and Phone Number)

COMMENT=Optional (Any clarification/remark)

RETURN_EMAIL_ADDRESS=Optional (if different than sender email address)

END_DATA

Sender Signature/Company Stationary: (Optional) Company Name, Address, Phone Number

Here is the Auto-response from DIS that the sender will receive upon email submission:

U.S. Customs & Border Protection (CBP) has received your e-mail to the Document Imaging System (DIS) Mailbox for Document Submissions. This auto-reply serves as a confirmation of receipt of your email only. It does not indicate acceptance or correctness of the submitted data or documents. Filers are to keep this e-mail to facilitate audit and tracking of submitted data and documents. Please report any issues to CBP if you do not receive this auto-response within an hour for every email submission to the DIS mailbox.

NOTE 4:
- Total email size including all attachments must not exceed **10MB.**
- For larger documents please breakup into multiple documents and submit multiple emails for the same Entry or Bill (i.e. send the same email subject line with additional documents).
- Photos/Images should be in an open internet format (jpeg, gif, png). Please do not use TIFFs.
- Documents should be of types pdf, doc, or xls (TIF and TIFF are not accepted).
- The file name must begin with 'DocCode-' (where DocCode is a unique code for the document)
- Do not leave a space between the "-"(dash) in 'DocCode-'and the rest of the file name.
- Email Responses will be sent to the sender's email address if a return email address is not provided.
- The auto-response message ONLY verifies that the email has been <u>received</u> via the email, it does NOT indicate that email contents including the document attachments are correct/acceptable.

<u>NOTE 5:</u>

The mandatory/optional conditions for data elements in the email body are given *inside* the email body for convenience. Please see Appendix A for actual validations performed by the system.

<u>NOTE 6:</u>

Vessel Data elements are added to the DIS XML schema. This enhancement will be supported beginning September 15, 2018.

<u>NOTE 7:</u>

Below are the <u>preferred</u> file types for DIS transactions submitted to CBP (this is not an exclusive list and CBP will not reject file types that maybe of other formats).

- PDF
- GIF
- PNG
- JPG
- JPEG
- XLS, XLSX (for specific programs such as CBMA)

Additional file types (besides the list above) may need to be used for specific business scenarios. Using other proprietary file types would mean the users need a corresponding viewer to view or open such files, and those viewers may not be readily available to the users.

TIF or TIFF file formats are strongly discouraged, since there are multiple proprietary flavors of these formats that may have display issues.

APPENDIX D: XSD Enumerated Value Definitions

The enumerated value definitions that appear below have been removed from CommonData.xsd to facilitate maintenance of these lists. Changes to these lists will require an update to the DIS IG only.

XSD Enumerated Value Definitions for MessageHeader – All Transaction Types

```
<xs:simpleType name="enumMessageType">
        <xs:restriction base="xs:string">
                <xs:enumeration value="DocumentSubmission"/>
                <xs:enumeration value="DocumentValidationResponse"/>
                <xs:enumeration value="DocumentReviewResponse"/>
        </xs:restriction>
</xs:simpleType>
```

XSD Enumerated Value Definitions for DocumentSubmissionPackage

```
<xs:simpleType name="enumActionCode">
        <xs:restriction base="xs:string">
                <xs:enumeration value="ADD"/>
                <xs:enumeration value="REPLACE"/>
                <xs:enumeration value="DELETE"/>
        </xs:restriction>
</xs:simpleType>
```

```
<xs:simpleType name="enumTransactionCategory">
        <xs:restriction base="xs:string">
                <xs:enumeration value="SINGLE_TXN"/>
                <xs:enumeration value="CONTINUOUS"/>
        </xs:restriction>
</xs:simpleType>
```

XSD Enumerated Value Definitions for DocumentSubmissionPackage (Cont)

```xml
<xs:simpleType name="enumCBPRequestType">
        <xs:annotation>
                <xs:documentation>Required if referring to a CBP Request
                    </xs:documentation>
        </xs:annotation>
        <xs:restriction base="xs:string">
                <xs:enumeration value="ACEActionNumber"/>
                <xs:enumeration value="ATSDocRequest"/>
                <xs:enumeration value="OtherCBPRequest"/>
        </xs:restriction>
</xs:simpleType>

<xs:simpleType name="enumInvoiceType">
        <xs:restriction base="xs:string">
                <xs:enumeration value="COMMERCIAL_INVOICE"/>
                <xs:enumeration value="OTHER"/>
        </xs:restriction>
</xs:simpleType>

<xs:simpleType name="enumTradePartyType">
        <xs:restriction base="xs:string">
                <xs:enumeration value="MANUFACTURER"/>
                <xs:enumeration value="EXPORTER"/>
                <xs:enumeration value="IMPORTER"/>
                <xs:enumeration value="SHIPPER"/>
                <xs:enumeration value="CARRIER"/>
                <xs:enumeration value="BROKER"/>
                <xs:enumeration value="FILER"/>
                <xs:enumeration value="CONSIGNEE"/>
                <xs:enumeration value="AGENT"/>
                <xs:enumeration value="BUYER"/>
                <xs:enumeration value="SELLER"/>
                <xs:enumeration value="FACILITATOR"/>
                <xs:enumeration value="OTHER"/>
                <xs:enumeration value="UNKNOWN"/>
        </xs:restriction>
</xs:simpleType>
```

XSD Enumerated Value Definitions for MessageValidationResponse

```xml
<xs:simpleType name="enumProcessingEvent">
        <xs:annotation>
                <xs:documentation>A list of Processing Events in DIS </xs:documentation>
        </xs:annotation>
        <xs:restriction base="xs:string">
                <xs:enumeration value="INITIAL_VALIDATION"/>
        </xs:restriction>
</xs:simpleType>

<xs:simpleType name="enumProcessingStatus">
        <xs:annotation>

                <xs:documentation>Required: Possible values for
                    DocumentProcessingStatus. 'PASSED' is sent to Trade once the system
                    receives the document and confirms that basic checks for the elements
                    in the XML look good. 'FAILED'is sent to Trade if the system finds that
                    one or more elements in the XML have an error.
                    </xs:documentation>
        </xs:annotation>
        <xs:restriction base="xs:string">
                <xs:enumeration value="PASSED"/>
                <xs:enumeration value="FAILED"/>
        </xs:restriction>
</xs:simpleType>
```

APPENDIX E: Guidelines for Used Self-Propelled Vehicle document submissions to DIS via Email

These guidelines are for **Used Self-Propelled Vehicle** document submissions to CBP DIS via email.

NOTE: *General* document submission guidelines may be found in APPENDIX B of this document, Vessel document submission may be found in APPENDIX C of this document and Export Manifest submission guidelines may be found at http://www.cbp.gov/trade/ace/export-manifest.

Send email to: docs@cbp.dhs.gov
Email Subject Line: CAT=GEN; ITN=X12345678910111; ACTION=ADD or DELETE, or REPLACE

NOTE 1:

The subject line must contain the ITN as a parameter. (Do not give additional parameters such as VIN, BOL, reference number, etc. Just give the ITN number.) Vehicle title will not be considered submitted to CBP if any value, other than ITN, is entered.

The three elements shown in subject line above should be provided. Elements should be delimited by a semi-colon (;) and there should be no spaces before and after the 'equal-to' signs.

Rules of usage for "ADD, REPLACE, or DELETE" function:
- If the used vehicle title is a first time submission then set **ACTION=ADD**
- If additional documents are required for the same submission,
   a. Send another email with the same Internal Transaction Number (*Key)* and set **ACTION=ADD**
- If a wrong document is submitted in error; i.e. wrong title, invoice, etc., and needs to replace with a new document.
   a. Send an email with *Key* to be deleted and set **ACTION=DELETE**
   b. Then another email with new PDF with same *Key* and set **ACTION=REPLACE**
- If the documents need to be deleted from a prior submission.
   a. Send email for *Key* to be deleted and set **ACTION=DELETE**
- If the submission itself was sent incorrectly (ex. ITN) in a prior submission, then
   a. Send an email with Key to be deleted and set **ACTION=DELETE**
   b. Then send another email with the new *Key* and set **ACTION=ADD**

*The above term *Key* refers to the Internal Transaction Number ITN.

Body:
START_DATA
TRANSMITTER_NAME=Mandatory (Name of company)
PORT_CD=(4 digit port code) Conditional
HOUSE_BOL_NBR=Optional
POC_INFO=Optional (Name and Phone Number)
COMMENT=Optional (Any clarification/remark)
RETURN_EMAIL_ADDRESS=Optional (if different than sender email address)
END_DATA

NOTE 2:

Computer readable .PDFs of vehicle titles and other documentation required by 19 CFR 192, should be filed in accordance with current vehicle export filing deadlines (i.e. 72 prior to export; For air and sea environments, DIS submissions are only acceptable after the vehicle has been delivered to the port pending export; and for land environments, the DIS submission is required 72 hours prior to the vehicle arriving at the port to go foreign.)

Here is the Auto-response from DIS that the sender will receive upon email submission:
U.S. Customs & Border Protection (CBP) has received your e-mail to the Document Imaging System (DIS) Mailbox for Document Submissions. This auto-reply serves as a confirmation of receipt of your email only. It does not indicate acceptance or correctness of the submitted data or documents. Filers are to keep this e-mail to facilitate audit and tracking of submitted data and documents. Please report any issues to CBP if you do not receive this auto-response within an hour for every email submission to the DIS mailbox.
