Permission to Land Procedures

Pilots must secure permission to land by contacting CBP prior to departure from foreign airport and at least two hours in advance of the anticipated arrival time at Casper/Natrona International Airport.

Permission to land is granted with a tolerance of (+/-) 30 minutes. If your ETA deviates outside these parameters, previously granted permission(s) are invalid and you must contact the CBP port to re-secure permission to land.

Inspection Process

- Aircraft should park on the southwest side of main passenger terminal on or near painted yellow diamonds on ramp in front of CBP Office.
- A CBP Officer will meet the aircraft on the ramp to begin the inspection.
- Be prepared to present passports, visas, pilot's license, medical certificate, aircraft registration, and user fee decal (if appropriate).

Special Procedures/Miscellaneous

- Due to weather or airport closures, proceed to Denver International (KDEN / DEN) unless you've made alternate arrangements with another CBP staffed airport.
