Intelligent Enforcement Subcommittee  
Antidumping and Countervailing Duty Working Group  
December 2024**

**Action Required:** Informational

**Background:**

- U.S. Customs and Border Protection (CBP) engages with the Commercial Customs Operations Advisory Committee Intelligent Enforcement Subcommittee's Antidumping and Countervailing Duty (AD/CVD) Working Group to improve the transparency of CBP's AD/CVD enforcement and processing.
- CBP strives to be as transparent on AD/CVD enforcement as disclosure laws allow and regularly posts AD/CVD information on CBP.gov and the social media platform, X.
- CBP provides information on AD/CVD requirements to facilitate legitimate imports.
- As of November 4, 2024, CBP enforced 716 AD/CVD orders. The number of AD/CVD orders CBP enforces has more than doubled since Fiscal Year 2020.

**Issue:**

- CBP and the AD/CVD Working Group key initiatives for facilitating legitimate AD/CVD imports and improving importer compliance include:
  - Testing automation to inform customs brokers about potential AD/CVD entry errors.
  - Increasing compliance with and providing more transparency on AD/CVD certification requirements.

**Current Status:**

- The AD/CVD Working Group discussions continue to focus on improving importer compliance with AD/CVD measures.

**Next Steps:**

- The AD/CVD Working Group will continue to discuss challenges and importer compliance to obtain the trade community's input on proposed changes to CBP policies.
