**APPENDIX Q – PGA Record Formats**
**AMS – Agricultural Marketing Service**
**Participating Government Agency Detail (Input AM1 Record)**

The PGA record contains specific information related to a particular PGA regarding a reported commodity contained in the shipment. Do NOT transmit if NOT required. A PGA is NOT allowed if the CL1 Line Item Filing Action Request Indicator is a **D** (Remove Line Item). The PGA record will conditionally be returned to the filer/transmitter, unchanged, in an output response when a data element in the record has caused or contributed to a fatal, warning, compliance alert, or verification condition.

Data Element	Length/ Class	Position	Desig	Description / Usage	Note
AMS Export Certificate Number	13X	7-19	M	AMS Export Certificate Number  Format C or X followed by 7 or 12 digits. For example: C1234567, C123456789012 X1234567, X123456789012	1
Filler	61X	20-80	M	Space fill.	

1) If the shipment is exempted from having an AMS export permit, please use BULKCONTR in the permit field for these shipments.

**FOR X12 – EXPORT SHIPMENT INFORMATION 601**

MAN\*ZZ\*AM1\*C123456789012~

Data Element	Length/ Class	Position	Desig	Description / Usage	Note
AMS Export Certificate Number	13X	MAN03 1-13	M	AMS Export Certificate Number  Format C or X followed by 7 or 12 digits. For example: C1234567, C123456789012 X1234567, X123456789012	1

1) If the shipment is exempted from having an AMS export permit, please use BULKCONTR in the permit field for these shipments.

---

**APPENDIX Q – PGA Record Formats**
**ATF – Bureau of Alcohol, Tobacco, Firearms and Explosives**
**Participating Government Agency Detail (Input AT6 Record)**

The PGA record contains specific information related to a particular PGA regarding a reported commodity contained in the shipment. Do NOT transmit if NOT required. A PGA is NOT allowed if the CL1 Line Item Filing Action Request Indicator is a **D** (Remove Line Item). The PGA record will conditionally be returned to the filer/transmitter, unchanged, in an output response when a data element in the record has caused or contributed to a fatal, warning, compliance alert, or verification condition. ATF records can be reported up to 999 times per commodity line.

<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig</b>	<b>Description / Usage</b>	<b>Note</b>
FFL Number	20X	7-26	C	Space fill if not used	1
FFL Exemption Code	1N	27	C	Valid values are: 1 – Government Contract 2 – ATF Exemption Letter Space fill if not used	1

**APPENDIX Q – PGA Record Formats**
**DEA – Drug Enforcement Administration**
**Participating Government Agency Detail (Input DEA Record)**

The PGA record contains specific information related to a particular PGA regarding a reported commodity contained in the shipment. Do NOT transmit if NOT required. A PGA is NOT allowed if the CL1 Line Item Filing Action Request Indicator is a **D** (Remove Line Item). The PGA record will conditionally be returned to the filer/transmitter, unchanged, in an output response when a data element in the record has caused or contributed to a fatal, warning, compliance alert, or verification condition. DEA records can be reported up to three times per commodity line.

<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig</b>	<b>Description / Usage</b>	<b>Note</b>
Drug Code	4AN	7-10	M	See 'Master DEA Drug Code-HTS-Schedule B Reference Table'	
Quantity	14N	11-24	M		1
Unit of Measure	3A	25-27	M	G, MG, KG, MCG	
Transaction Type	1A	28	M	E – Export T – Transient	
Permit Number/Transaction ID Number	7AN	29-35	M	DEA Permit Number or DEA Transaction authorization number	
Entity Number	9AN	36-44	M	The DEA registration number or company identification number. DEA assigns identification numbers to companies that are not registrants.	
Filler	36AN	45-80	M	Space fill	

- 1) Last 4 numbers of quantity is after the decimal point. For example: 32 Grams should be reported as 00000000320000. If reporting .25 Grams, report as 0000000002500.

**APPENDIX Q – PGA Record Formats**
**EPA – Environmental Protection Agency**
**Participating Government Agency Detail (Input EP1 Record)**

The PGA record contains specific information related to a particular PGA regarding a reported commodity contained in the shipment. Do NOT transmit if NOT required. A PGA is NOT allowed if the CL1 Line Item Filing Action Request Indicator is a **D** (Remove Line Item). The PGA record will conditionally be returned to the filer/transmitter, unchanged, in an output response when a data element in the record has caused or contributed to a fatal, warning, compliance alert, or verification condition. Only one PGA record for EP1 will be allowed per commodity line.

<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig</b>	<b>Description / Usage</b>	<b>Note</b>
EPA Licensed Required Indicator	1A	7	M	If 'Y', information below is required.	
EPA Consent Number	12AN	8-19	M	Consent number, including waste stream number, from the Acknowledgement of Consent Letter is mandatory. For example, if your consent number for waste stream one is 007071/12E/13.001, you would remove special characters and provide 007071E13001.	
RCRA (Resource Conservation & Recovery Act) Hazardous Waste Manifest Tracking Number	12AN	20-31	C	EPA RCRA Hazardous Waste Manifest Number (OMB Form # 8700-22) associated with the export is conditionally required if waste is required to be RCRA manifested (not CBP manifested) within the United States. For example, 000024109FLE.	1
EPA Net Qty Unit of Measure	3AN	32-34	C	Unit of measure. Conditionally required if neither CL1 nor CL2 quantity are the unit of measure indicated for the AOC. KG are required if waste is solid, L is required if waste is liquid or sludge.	2
EPA Net Quantity	10N	35-44	C	Quantity of the export for Unit of Measure provided. Conditionally required if neither CL1 nor CL2 quantity are the unit of measure indicated for the AOC. For example, 000000100.	2
Filler	36AN	45-80	M	Space fill.	

- 1) The format should be 12 characters in length, comprised of 9 numbers, then 3 letters without dashes and other special characters (e.g. NNNNNNNNAAA).
- 2) If filer provides the Quantity Unit of Measure and Quantity in the CL2 record in a unit of measure of kilograms or liters, it is not necessary to provide an EPA Net Quantity and Unit of Measure.

**APPENDIX Q – PGA Record Formats**

**FOR X12 – EXPORT SHIPMENT INFORMATION 601**

MAN\*ZZ\*EP1\*Y008054E13001571468164XGBKG 0000000199~

Data Element	Length/ Class	Position	Desig	Description / Usage	Note
EPA Licensed Required Indicator	1A	MAN03 1	M	If ‘Y’, information below is required.	
EPA Consent Number	12AN	MAN03 2-13	M	Consent number, including waste stream number, from the Acknowledgement of Consent Letter is mandatory. For example, if your consent number for waste stream one is 007071/12E/13.001, you would remove special characters and provide 007071E13001.	
RCRA (Resource Conservation & Recovery Act) Hazardous Waste Manifest Tracking Number	12AN	MAN03 14-25	C	EPA RCRA Hazardous Waste Manifest Number (OMB Form # 8700-22) associated with the export is conditionally required if waste is required to be RCRA manifested (not CBP manifested) within the United States. For example, 000024109FLE.	1
EPA Net Qty Unit of Measure	3AN	MAN03 26-28	C	Unit of measure. Conditionally required if neither CL1 nor CL2 quantity are the unit of measure indicated for the AOC. KG are required if waste is solid, L is required if waste is liquid or sludge.	2
EPA Net Quantity	10N	MAN03 29-38	C	Quantity of the export for Unit of Measure provided. Conditionally required if neither CL1 nor CL2 quantity are the unit of measure indicated for the AOC. For example, 000000100.	2

- 1) The format should be 12 characters in length, comprised of 9 numbers, then 3 letters without dashes and other special characters (e.g. NNNNNNNNAAA).
- 2) If filer provides the Quantity Unit of Measure and Quantity in the CL2 record in a unit of measure of kilograms or liters, it is not necessary to provide an EPA Net Quantity and Unit of Measure.

**APPENDIX Q – PGA Record Formats**
**FWS – Fish & Wildlife Service - TBD**
**Participating Government Agency Detail (Input FW7 Record)**

The PGA record contains specific information related to a particular PGA regarding a reported commodity contained in the shipment. Do NOT transmit if NOT required. A PGA is NOT allowed if the CL1 Line Item Filing Action Request Indicator is a **D** (Remove Line Item). The PGA record will conditionally be returned to the filer/transmitter, unchanged, in an output response when a data element in the record has caused or contributed to a fatal, warning, compliance alert, or verification condition.

<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig</b>	<b>Description / Usage</b>	<b>Note</b>
eDecs Confirmation number	13AN	7-19	C	Number indicating export is authorized by FWS and will be validated. Format: CCYY, a two letter alphanumeric port code and a 7 digit unique number Sample: 2015CH1234567.	1
Filler	1AN	20	M	Space fill	
Taxonomic Serial Number	19X	21-39	C	The Taxonomic Serial Number (TSN) representing the species or other taxonomic classification of an animal. Report left justified and only the product code number.	1
FWS Purpose Code	1A	40	C	Code indicating the specific FWS processing codes based upon purpose of which the data set is related B – Breeding in captivity E – Educational H – Hunting trophy M – Biomedical Research P – Personal Q – Circus/Travelling Exhibition S – Scientific T – Commercial Y – Reintroduction into the wild Z – Zoo	
FWS Description Code	3A	41-43	C	Description Codes assigned by FWS. See ' <i>Appendix PGA</i> '	1
Species Country of Origin	2A	44-45	C	Two letter ISO code that identifies the country where the species of animal was taken from the wild or born. For shipments of wildlife (sea turtles, fish, etc.) that were landed (introduced) after harvest on the high seas, enter ZZ.	1

---

**APPENDIX Q – PGA Record Formats**

<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig</b>	<b>Description / Usage</b>	<b>Note</b>
Source Code	1A	46	C	A code indicating the FWS source of animal W – Specimens taken from the wild R – Specimens originating from a ranching operation O – Pre-convention specimens F – Animals that do not qualify as captive-bred under CITES U – Source unknown (lack of information must be justified) C – Animals bred in captivity (from parents that mated in captivity) I – Confiscated or seized specimens D – CITES Appendix I animals commercially bred in CITES J – Specimens that are domesticated X – Specimens taken on the high seas	
Exemption Certification Code	3AN	47-49	C	Code indicating FWS exemption certification FW1- Certification of No Wildlife FW2 – Salmonid Certification	2,3
FWS Wildlife Category Code	3A	50-52	C	A code representing the FWS Wildlife Category Codes. See ' <i>Appendix PGA</i> '.	1
State of Species Origin	2A	53-54	C	2-letter US state code where species was born, bred, taken from the wild	1
Filler	26AN	55-80	M	Space fill	

- 1) Validation against reference table. If valid eDecs Number, then no other information is required.
- 2) FW1 – I certify that this commodity is not, or does not, contain any live wildlife part of product.
- 3) FW2 – I certify that any salmonid fish are dead, eviscerated (all inter organs removed) fish, fillet fish, or fish or eggs that have been processed by canning, pickling, smoking, or otherwise prepared in a manner whereby the *Onchorhynchus masou* virus and the viruses causing viral hemorrhagic septicemia, an infectious hematopoietic necrosis, and infectious pancreatic necrosis have been killed.

**NMFS Document Identifiers**

<i>Code</i>	<i>Name</i>	<i>Definition</i>
878	ICCAT Swordfish Statistical Document; OMB 0648-0040	Accompanies US imports of Swordfish harvested in the Atlantic Ocean and its adjacent seas. Swordfish dealers who export or import swordfish from all ocean areas are required to complete the appropriate document sections.
879	ICCAT Swordfish Re-Export Certificate; OMB 0648-0040	Accompanies US imports of swordfish harvested in the Atlantic Ocean and its adjacent seas that are re-exported from the country where it was first landed and later imported into the US. (To be accompanied by an ICCAT Swordfish Statistical Document)
880	ICCAT Bluefin Tuna Re-Export Certificate; OMB 0648-0040	Accompanies US import of Bluefin Tuna harvested in the Atlantic Ocean and its adjacent seas that is re-exported from the country where it was first landed/imported and later imported into the US. (To be accompanied by the original Bluefin Tuna Catch Document)
881	ICCAT Bigeye Tuna Statistical Document; OMB 0648-0040	Accompanies US imports of frozen Bigeye tuna harvested in the Atlantic Ocean and its adjacent seas.
882	ICCAT Bigeye Tuna Re-Export Certificate; OMB 0648-0040	Accompanies US import of frozen Bigeye Tuna harvested in the Atlantic Ocean and its adjacent seas that is re-exported from the country where it was initially (first) landed/imported and later imported into the US. (To be accompanied by the original ICCAT Bigeye Tuna Statistical Document)
883	Bluefin Tuna Catch Document	(also identified as the "ICCAT Bluefin Tuna Catch Document") Accompanies Bluefin tuna imported into the US. Dealers who import Bluefin tuna harvested from all ocean areas (except Southern Bluefin Tuna from the southern oceans) will be required to complete the appropriate sections of the BCD.
884	IATTC Bigeye Tuna Statistical Document; OMB 0648-0040	Accompanies frozen Bigeye tuna harvested in the Eastern Pacific Ocean (area east of 150°) and imported into the US. must be accompanied by an IATTC Bigeye Tuna Statistical Document.

---

**APPENDIX Q – PGA Record Formats**

<i>Code</i>	<i>Name</i>	<i>Definition</i>
885	IATTC Bigeye Tuna Re-Export Certificate	Frozen Bigeye tuna harvested in the Eastern Pacific Ocean (area east of 150°) re-exported from the country where it was initially (first) landed being imported into the US must be accompanied by the IATTC Bigeye Re- Export Certificate.
886	CCSBT Catch Monitoring Form	Accompanies Southern Bluefin tuna imported into the US. (Southern Bluefin is that harvested from the oceans of the southern hemisphere mainly in waters between 30 and 50 degrees south)
887	CCSBT Re-Export After Landing of Domestic Product Form	Accompanies Southern Bluefin tuna imported into the US that is re-exported from the country where it was first landed/imported and later imported into the US. (Southern Bluefin is that harvested from the oceans of the southern hemisphere mainly in waters between 30 and 50 degrees south) (accompanied by an CCSBT Catch Monitoring Form)
888	Reporting Form for Catch Documents Accompanying Fresh, Air-shipped Shipments of Toothfish; OMB0648-0194	Accompanies fresh (non-frozen) air shipped toothfish imported into the US.  NMFS reporting document completed by the persons importing the toothfish
889	Dissostichus Catch Document	Accompanies all shipments of fresh toothfish. Submitted to confirm that the fish was harvested within the requirements of the international convention (CCAMLR-Commission for the Conservation of Antarctic Marine Living Resources and meets the U.S. regulatory requirements).
891	IOTC Bigeye Tuna Statistical Document	Accompanies Frozen Bigeye tuna harvested in the Indian Ocean and imported into the US
892	IOTC Bigeye Tuna Re-Export Document	Accompanies Frozen Bigeye tuna harvested in the Indian Ocean and re-exported from the country where it was first landed then later imported into the US. Must be accompanied by the IOTC Bigeye Re-Export Certificate.
893	Dissotichus Re-Export Document	Accompanies all shipments of fresh tooth fish re- exported from the country where it was initially (first) landed being re-exported and imported into the US.  Necessary to assure that the fish was harvested within the requirements of the international convention the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) and meets the U.S. regulatory requirements.

**APPENDIX Q – PGA Record Formats**
**NMFS - Ocean Geographic Area Codes**

Code	Name	Definition
A	Atlantic	An ocean bounded by: the Arctic Ocean along a line arbitrarily designated as lying along a system of submarine ridges that extend between land masses of Baffin Island, Greenland, and Scotland; the Mediterranean Sea at Strait of Gibraltar; the Caribbean Sea along arc of the Antilles; the Indian Ocean on the east by the 20° east meridian; and from the Pacific on the west along the line of shallowest depth between Cape Horn and Antarctic Peninsula.
CAR	Caribbean Sea	A sea, enclosed on the north and east by the islands of the West Indies, and bounded on the south by South America and Panama, and on the west by Central America separated from the Atlantic ocean along the arc of the Antilles.
GM	Gulf of Mexico	
EA	Eastern Atlantic Ocean	Atlantic ocean, east of 45 W. longitude.
EPO	Eastern Pacific Ocean East of 150 E	Pacific ocean, east of 150 W. longitude.
ETP	Eastern Tropical Pacific Ocean East of 160 W	Pacific ocean, east of 160 W. longitude, between 40 N. and 40 S. latitude.
IND	Indian Ocean	Ocean bounded on the west by Africa, on the north by Asia, on the east by Australia and Australian islands, and on the south by the Southern Ocean. A line 4000 km (2500 mi) long on the 20 <sup>th</sup> meridian east of Greenwich, connecting Cape Agulhas at the southern end of Africa with Antarctica, is generally considered to be the boundary between it and Atlantic ocean.
MED	Mediterranean	Inland sea of Europe, Asia, and Africa, separated from the Atlantic Ocean at its western end by the Strait of Gibraltar.
NAT	North Atlantic	Atlantic ocean, north of the equator.
NP	North Pacific Ocean	Pacific ocean, north of 40 N. Latitude.
OTH	Other – Describe Area	Other area, not defined by any other coded location.
PAC	Pacific Ocean	An ocean extending from the Arctic in the north to Antarctica in the south, bounded by Asia and Australia on the west and the Americas on the east.
SAT	South Atlantic	Atlantic ocean, south of the equator.
SP	South Pacific Ocean	Pacific ocean, west of 160 W. longitude.
WA	Western Atlantic Ocean	Atlantic ocean, west of 45 W. longitude.
WP1	Western Pacific Ocean West of 150 W	Pacific ocean, west of 150 W. longitude
WP	Western Pacific Ocean West of 160 W	Pacific ocean, west of 160 W. longitude and north of 15 S. latitude

**APPENDIX Q – PGA Record Formats**

**TTB – Alcohol and Tobacco Tax and Trade Bureau**

**Participating Government Agency Detail (Input TTB Record)**

The PGA record contains specific information related to a particular PGA regarding a reported commodity contained in the shipment. Do NOT transmit if NOT required. A PGA is NOT allowed if the CL1 Line Item Filing Action Request Indicator is a **D** (Remove Line Item). The PGA record will conditionally be returned to the filer/transmitter, unchanged, in an output response when a data element in the record has caused or contributed to a fatal, warning, compliance alert, or verification condition.

Data Element	Length/ Class	Position	Desig	Description / Usage	Note
TTB IRC (Internal Revenue Code) Registry Number, TTB IRC Permit Number, or EIN	15AN	7-21	M	TTB issued export permit number Format: Left justified: XX-XX-XXX-XXXXXX or XX-XX-XXXXXX or XXX-XX-XXXXXX or EIN format.	1
Date	8N	22-29	M	Date products left the TTB bonded premises. The date of removal by manufacturer or export warehouse. This date cannot be greater than export date. Format: YYYYMMDD.	
Serial Number	11AN	30-40	M	Serial Number from the applicable TTB export form. Format: Left Justified: XXXXXXXX	2
TTB Disclaimer	1AN	41	C	Valid values '1' or space fill if not used	3
Filler	39AN	42-80	M	Space fill	

3) TTB Data Disclaimed because commodity not regulated by TTB.

Note 1: TTB does not issue export specific permits, instead, TTB IRC registry numbers, IRC manufacturing permits, and IRC export warehouse permits are used for export. TTB will use EINs for alcohol wholesalers who export under a TTB bond. The following entities will use these formats:

ENTITY/(Type of Permit, Notice, Other)	TTB PERMIT/BREWERS NOTICE OR OTHER FORMAT USED TO EXPORT	NOTE
Brewery (IRC Registry)	BR-MD-AAA-11111	BR-Brewer; MD-State where premises are located; AAA-Used to identify name of brewer; 11111-Up to five numbers to identify brewer's premises.
Brewery (IRC Registry)	BR-MD-11111	BR-Brewer; MD-State where premises are located; 11111-Up to five numbers to identify brewer's premises

---

**APPENDIX Q – PGA Record Formats**

Winery (IRC Registry)	BW-MD-11111	BW-Winery; MD-State where premises are located; 11111-Up to five number to identify winery premises.
Winery (IRC Registry)	BWN-MD-11111	BWN-Winery; MD-State where premises are located; 11111-Up to five number to identify winery premises.
Winery (Basic Permit)	BWC-MD-11111	BWC-Winery; MD-State; 11111-Up to five number to identify winery premises.
Distilled Spirits Plant (IRC Registry)	DSP-MD-11111	DSP-Distilled Spirits Plant; MD-State where premises are located; 11111-up to five numbers to identify premises.
Tobacco Manufacturer (IRC Registry)	TP-MD-11111	TP-Manufacturer Tobacco Products; MD-State where premises are located; 11111-up to five numbers to identify premises.
Manufacturer Papers and Tubes	PT-MD-11111	PT-Manufacturer Papers and Tubes; MD-State where premises are located; 11111-up to five numbers to identify premises.
Export Warehouse (IRC Permit)	EX-MD-11111	EX-Export Warehouse; MD-State where premises are located; 11111-up to five numbers to identify premises.
Alcohol Wholesaler (EIN)	XXXXXXXXXXXX	EIN will be used for wholesalers who export

Note 2: **TTB Serial Number from TTB Forms:** TTB-regulated businesses are required to report exports of regulated products to TTB on export and drawback forms that include serial numbers. Serial numbers are required on the following TTB forms:

TTB 5100.11 – Withdrawal of Spirits, Specially Denatured Spirits or Wines for Exportation  
TTB 5110.30 – Drawback on Distilled Spirits Exported  
TTB 5120.24 – Drawback on Wines Exported  
TTB 5130.12 – Beer for Exportation  
TTB 5130.6 – Drawback on Beer Exported  
TTB 5200.14 – Taxable Articles Without Payment of Tax
