Subject: Updated Title 42 Guidance
Date: Wednesday, July 28, 2021 4:20:08 PM

Corridors,

Please send to your respective SWB Sector points of contact for immediate distribution and implementation.

BLUF: U.S. Border Patrol (USBP) continues to experience a migrant surge across the Southwest Border that exceeds our throughput capability and detention capacity. In an effort to manage current detention levels, specifically in sectors like RGV, where encounter numbers are overwhelming organic and downstream effects, USBP SWB Sectors will maximize the use of Title 42(T42) for single adults (SA) and family units (FMU).

SWB Sectors should continue to coordinate with Government of Mexico (GoM), Immigration and Customs Enforcement (ICE) Air Operations, other SWB Sectors and relevant stakeholders to immediately expel amenable populations accordingly, i.e. SAs, FMUs.

Reminder that current T42 protocols in accordance with the Centers for Disease Control and Prevention Order apply as well as the importance of coordination with Mexico for the immediate expulsion of family units as it relates to current Mexican Legislation regarding accompanied or unaccompanied minors.

Effective immediately, enhanced efforts to apply T42 include the use of lateral flights in coordination with receiving sectors and in alignment with local restrictions and specific criteria set by GoM.

Staff may direct questions to Immigration, Prosecution & Custody OPS at
(b) (7)(E)

Respectfully,

(b) (6), (b) (7)(C)
Assistant Chief
United States Border Patrol
