**COMMERCIAL CUSTOMS OPERATIONS
ADVISORY COMMITTEE**

Commercial Customs Operations Advisory Committee (COAC)
Secure Trade Lanes Subcommittee
Export Modernization Working Group
Draft Recommendations

Recommendations:

1. COAC recommends that the CTPAT process be explored by CBP for exports.
2. COAC recommends that a verification process be explored by CBP for used self-propelled vehicle exports, adding a preventative layer for stolen vehicles and for those vehicle exports that have not met the 72-hour prior to export requirement by the exporter in order to present the vehicle and paperwork to CBP that will be carried out consistently across all ports. This verification process should include automation with an electronic notification to Carriers so that the Carrier and CBP can be aware that the vehicle has been presented and verified by CBP, facilitating clearance for export.
