- Entry Summary Status Notification
- Cargo Release Status Notification
- Status notification for Stand-alone PE data submission
- ACE Cargo Manifest/In-Bond/Entry Status Query
 - The WO70-71 records mimic the ACE Cargo Release Notification records (SO70-71). Please refer to the SO70-71 section of this document for valid PGA output codes for the WO70-71.

The PGA-related output codes have been removed from the above documents and now appear in this document. References to this document have been made in the above documents, where the codes were removed.

This document is intended to streamline future updates to the PGA-related output codes, without needing to update the above individual documents each time. Instead, this single document will be updated.

If an agency's Intensive or Document Required is resolved by CBP, trade may not receive this SO70 notification of Satisfied or Resolved (12, 13) by PGAs. However, the SO60 message with the entry's status will always be sent.

Note that Codes 10, 11, 12 and 13 indicate activity at the Entry level. The PGA line number, if provided, is only for information.
