In conjunction with Secretary of State and the Secretary of Homeland Security, approx. 842 refugees (complete list attached) have been authorized to travel to the United States from January 30th – February 2nd. These are first time entrants and thus should only arrive to the seven (7) designated POEs:

The Executive Order (EO) does allow for a waiver pursuant to Section 5(e) with concurrence of the Secretary of State and Secretary of Homeland Security. The Department of State has provided a copy of their concurrence concurring with a waiver **for only the 842 refugees listed in the attached**. The Secretary of Homeland Security has delegated his authority to the Commissioner of U.S. Customs and Border Protection. The Commissioner has further delegated his authority (see below) that allows the listed individuals to effectuate said waiver per Section 5(e) of the EO. Subject: OPA EO Guidance - summary

Command Staff, Supervisors, OICs:

Lots of email traffic this weekend about how to respond to inquiries from the public and media about the Presidential Executive Orders with potential impact to CBP operations. I hope this email will pull everything together and simplify what might be getting confusing.

To clarify, the “STOP” part of the direction in the message below is in reference to queries from the *traveling public*. They should not be referred to the CBP media relations inbox because these “concerned citizen” type inquiries are overwhelming Public Affairs staff and distracting them from addressing legitimate media inquiries. It’s *not* a direction to stop communicating with the media altogether.

Whenever possible, media inquiries should be directed to me as the Public Affairs Liaison so that I can track them and ensure consistency in forwarding them to the DHS Office of Public Affairs. In the event I’m not available, please direct the media to the DHS OPA at the info below and send me an email letting me know the circumstances (name of media organization, name of requestor, contact info). Not so confusing after all!

DHS Office of Public Affairs:

Phone: (b)(7)(E)

Email: (b)(7)(E)

Also, please remind your teams that even if they believe they’re having a *personal* conversation with a longshoreman/warehouse worker/crewmember/etc. in which they’re sharing their views on the recent Executive Orders, if they’re in uniform and on-duty they’re representing the agency and could be seen as speaking on its behalf. Best to let the orders speak for themselves and “lay low” on some of these topics until the dust settles.

Let me know if you have any questions.

“Following Office of Management and Budget (OMB) approval, U.S. Customs and Border Protection (CBP) added an optional question to the Electronic System for Travel Authorization (ESTA) application requesting the voluntary submission of an applicant’s social media account identifiers. “CBP remains committed to protecting the privacy, civil rights, and civil liberties of all travelers. Trade:

1/26: Tim, saw a trade group released some advice it got from CBP about HTS changes and a dumping case that involves some changed HTS codes. Is the below right? If so, does CBP have anything more to add that he should include in his story? *ACE will accept entry lines filed with HTS numbers that are not yet in the AD/CVD*

case reference file HTS tab. Filing the entries as such WILL NOT create a reject. An informational message is all that will be sent back to the broker. It will allow entry as a type 03 **with the case number added**. If no case number is added then it will not allow a type 03 entry. (This means you will need to correct it later.) **This information was submitted out to the trade community via CSMS Message #16-000466 dated 06/07/2016.** If an issue is occurring, where a broker cannot file an entry/entry summary, it is due to either a reject for another issue on the entry/entry summary or their filing software. The broker should investigate their error messages and contact their software vendor to ask for the software validations to be relaxed to allow for the case number to be filed in conjunction with the HTS number. His deadline is tomorrow at 2 pm for a publication on 1/27, or when we have a response.

Does USCBP staff ever interface with IBC staff when IBC staff are doing their work along the Washington/British Columbia border? If so, can you describe how often, what that looks like, etc.: *The U.S. Border Patrol in Blaine Sector does interact with the International Boundary Commission on occasion. IBC supervisors and station leadership have met (or been notified via telephone or email) in advance of projects of joint concern prior to work being done. (The Border Patrol is interested in being notified of any legitimate activity occurring at or*

near the border). *Informal interaction between IBC workers and Border Patrol Agents occur between agents in the field and IBC workers on the border incidental to each working in the same area.* 2. Is there some kind of regular administrative communication between USCBP and IBC staff? How often? How formal/informal, etc.?: *There does not currently exist regular formal scheduled administrative communication between the IBC and U.S. Border Patrol in Blaine, Washington. However, the agencies are familiar enough about each other's mission, there is communication whenever one agency's work may impact the other. An example would be when the IBC is going to perform maintenance or brush clearing on the border the IBC would contact Blaine Sector and/or station leadership and let them know they will be working in the area at a particular place and time. This information would be passed down to the agents in the field so they are aware of this activity on or near the border.*

CBP Officers Discover Man is Wanted for Homicide

SAN DIEGO — U.S. Customs and Border Protection officers working at the San Ysidro port of entry Wednesday discovered a man was wanted for homicide by the San Diego County Sheriff's Office.

On Jan. 25, at about 7:45 p.m., Mexican officials escorted a man to the San Ysidro pedestrian border crossing, Ped West. A CBP officer ran a fingerprint query of law enforcement databases and discovered a possible match for an active outstanding felony warrant for his arrest.

CBP officers confirmed the man's identity as 30-year-old Jorge Ibarra, a U.S. citizen, and that he was the subject of an outstanding warrant for homicide. The warrant was issued at the request of the San Diego County Sheriff's Department with bail set at \$1 million.

Ibarra was transferred to the custody of U.S. Deputy Marshals and booked into the San Diego Central Jail.

“Following Office of Management and Budget (OMB) approval, U.S. Customs and Border Protection (CBP) added an optional question to the Electronic System for Travel Authorization (ESTA) application requesting the voluntary submission of an applicant’s social media account identifiers. The question was added as part of the agency’s efforts to enhance the vetting of travelers to the United States. Information found in social media may be used to review ESTA applications to validate legitimate travel, adjudicate VWP ineligibility waivers, and identify potential threats.

“CBP remains committed to protecting the privacy, civil rights, and civil liberties of all travelers. CBP will handle the voluntarily-provided social media identifiers in the same manner as other information collected through ESTA and has documented these procedures in the newly updated System of Notice Records Notice and Privacy Impact Assessment available at dhs.gov/privacy.”

Trade:

1/26: [redacted] saw a trade group released some advice it got from CBP about HTS changes and a dumping case that involves some changed HTS codes. Is the below right? If so, does CBP have anything more to add that he should include in his story? *ACE will accept entry lines filed with HTS numbers that are not yet in the AD/CVD case reference file HTS tab. Filing the entries as such WILL NOT create a reject. An informational message is all that will be sent back to the broker. It will allow entry as a type 03 with the case number added. If no case number is added then it will not allow a type 03 entry. (This means you will need to correct it later.) This information was submitted out to the trade community via CSMS Message #16-000466 dated 06/07/2016. If an issue is occurring, where a broker cannot file an entry/entry summary, it is due to either a reject for another issue on the entry/entry summary or their filing software. The broker should investigate their error messages and contact their software vendor to ask for the software validations to be relaxed to allow for the case number to be filed in conjunction with the HTS number.* His deadline is tomorrow at 2 pm for a publication on 1/27, or when we have a response.

If they express a credible fear of return they will be processed by CBP officers and then turned over to ICE-ERO for placement in a detention facility pending the adjudication of their credible fear/asylum claim.

The Cuban migrant makes their own decision whether to pursue their credible fear/asylum claim in the U.S. or to return to Mexico. CBP is not turning anyone away.

The decision whether to pursue a credible fear claim rests entirely with the Cuban migrant and what they choose to do.

Ports are managing flows commensurate with each port's capacity to safely process arriving aliens while providing essential services to ensure their health and safety. OTM Aliens, that were not deemed high risk, are provided with a Government of Mexico social services resource list and an appointment window to return to the POE for processing.

Statement

Cuban migrants who present themselves at a port of entry are advised by CBP officers of the current process. Each Cuban is processed on a case by case basis in accordance with applicable provisions of the Immigration and Nationality Act and each case varies.

If they express a credible fear of return they will be processed by CBP officers and then turned over to ICE-ERO for placement in a detention facility pending the adjudication of their credible fear/asylum claim.

The Cuban migrant makes their own decision whether to pursue their credible fear/asylum claim in the U.S. or to return to Mexico. CBP is not turning anyone away.

The decision whether to pursue a credible fear claim rests entirely with the Cuban migrant and what they choose to do.

Ports are managing flows commensurate with each port's capacity to safely process arriving aliens while providing essential services to ensure their health and safety. OTM Aliens, that were not deemed high risk, are provided with a Government of Mexico social services resource list and an appointment window to return to the POE for processing.

Does USCBP staff ever interface with IBC staff when IBC staff are doing their work along the Washington/British Columbia border? If so, can you describe how often, what that looks like, etc.: *The U.S. Border Patrol in Blaine Sector does interact with the International Boundary Commission on occasion. IBC supervisors and station leadership have met (or been notified via telephone or email) in advance of projects of joint concern prior to work being done. (The Border Patrol is interested in being notified of any legitimate activity occurring at or near the border). Informal interaction between IBC workers and Border Patrol Agents occur between agents in the field and IBC workers on the border incidental to each working in the same area.* 2. Is there some kind of regular administrative communication between USCBP and IBC staff? How often? How formal/informal, etc.?: *There does not currently exist regular formal scheduled administrative communication between the IBC and U.S. Border Patrol in Blaine, Washington. However, the agencies are familiar enough about each other's mission, there is communication whenever one agency's work may impact the other. An example would be when the IBC is going to perform maintenance or brush clearing on the border the IBC would contact Blaine Sector and/or station leadership and let them know they will be working in the area at a particular place and time. This information would be passed down to the agents in the field so they are aware of this activity on or near the border.*

Directors,

I apologize for the delay. Please be advised that you have unilateral authority to approve exemptions to the Executive Order for LPRs, no State Department approval required. The exemption process for other categories of aliens as outlined in the policy guidance currently requires the approval of the acting Commissioner. Further guidance for these exemptions is forthcoming.

Memorandum For: Directors, Field Operations

From: Todd A. Hoffman
Executive Director
Admissibility and Passenger Programs
Office of Field Operations

Subject: Guidance on Executive Order "Protecting the Nation from Foreign Terrorist Entry into the United States"

Effective immediately, and pursuant to Executive Order entitled, "*Protecting the Nation from Foreign Terrorist Entry into the United States*" (January 27, 2017), all entry into the United States for aliens who are nationals from Iran, Iraq, Libya, Somalia, Sudan, Syria and Yemen is hereby suspended in accordance with Section 212(f) of the INA. This includes all non-immigrant classifications, with the exception of those foreign nationals traveling on diplomatic visas, NATO visas, C2 visas for travel to the United Nations, G1, G2, G-3, and G-4 visas. This also includes all immigrant classes of admission, returning resident aliens refugees and asylees.

The Department to State has provided CBP with a letter provisionally revoking all immigrant and non-immigrant visas for nationals of Iran, Iran, Libya, Somalia, Sudan, and Yemen. Revocations may not yet be annotated in the system.

Wherever possible, (b)(7)(E) will coordinate the denial of boarding through (b)(7)(E) (b)(7)(E) locations, and (b)(7)(E)

Should aliens, subject to the Executive Order, arrive at the port of entry, CBP officers are instructed to take the following actions:

Applicants bearing Non-Immigrant Visas and First Time Arriving Immigrants:

- (1) All case processing will be recorded in (b)(7)(E) system, according to current policy/procedure.
- (2) Subjects will be allowed to withdraw their application for admission on Form I-275, **without a sworn statement**. All other procedures pertaining to the processing of Form I-275 withdrawal cases apply.
- (3) Should the alien decline to withdraw their application for admission, the alien will be placed in Expedited Removal in accordance with standard operating procedures.
- (4) Aliens claiming fear of return will be referred to an asylum officer, and processed for Expedited Removal/Credible Fear (ERF). Aliens processed under ERF procedures will be referred to ERO for detention. Field Offices should clearly indicate to both CIS and ERO that aliens are subject to Executive Order during the referral process.

Returning Residents,

(1) Lawful Permanent Residents should be referred for (b)(7)(E) and held at the port of entry until an exemption to the Executive Order is granted. The authority to grant an exemption has been delegated to the Commissioner of CBP, and further delegated to Directors of Field Operations and SES Port Directors. Once an exemption has been granted results of (b)(7)(E) should be noted in (b)(7)(E) with the following language: *Individual is subject to Presidential Executive Order and barred from entry pursuant to 212(f) of the INA but has been granted an exemption per (insert DFO/SES PD).*

Refugees, Asylees, Unaccompanied Children, and subjects returning to the US with Advanced Parole:

(1) Aliens from the above group who are prevented from entry solely as a result of the Executive Order, should be referred for (b)(7)(E) and held at the port of entry until such time as an exemption to the Executive Order can be obtained. This exemption falls to the Secretary of State and Secretary of Homeland Security. Further guidance will be forthcoming on processing these exemptions.

Individuals who fall within any of the above may not be paroled, which includes port parole and deferred inspection. To the extent that there is an emergent medical issue related to an alien who falls within the Executive Order, CBP officers must accompany the alien for any medical care.

Returning aliens ineligible who withdraw their application for admission:

- (1) Aliens arriving via air or sea: Commercial carriers are required to remove foreign aliens found ineligible for entry under this order pursuant to 241(c)(1) of the INA.
- (2) Aliens arriving via land will be returned per current established procedures with the contiguous country.

Please ensure that this memorandum and attached muster are disseminated to all ports of entry within your jurisdiction. If you have any questions or require additional information, please contact (b)(6), (b)(7)(C) (b)(6), (b)(7)(C) (A) Director, Enforcement Programs Division, at (b)(6), (b)(7)(C)

Importance: High

Good morning Seattle,

My apologies for the extremely short turn-around, but this is high priority for the EAC and his upcoming call with Governor Inslee taking place later today.

We need the FO to prepare a Briefing Memo with some background and talking points based on the local knowledge and the following information provided by the Gov's staff.

Please prepare and return the response to FLD NLT 1100 (EST) today to allow us time to format the documents.

Below is some specific information about the purpose of the call

Washington State Governor Jay Inslee would like to speak with CBP leadership about a specific individual who travelled to SeaTac International Airport from Somalia via Vienna, Austria. The individual's name is **(b)(6), (b)(7)(C)** and he is reported to have returned to Vienna after being denied entry into the United States. A Seattle Times article (link below) states that **(b)(6), (b)(7)(C)** has lived in Seattle for 12 years. I don't have any more specific information about his legal status.

The Governor is specifically interested in discussing the process by which **(b)(6), (b)(7)(C)** could return to the U.S. and CBP's overall implementation of the EO.
