On January 28, 2017, the petitioners filed an Emergency Motion for Stay of Removal on behalf of themselves and others similarly situated.

IT APPEARING to the Court from the Emergency Motion for Stay of Removal, the other submissions, the arguments of counsel, and the hearing held on the 28th of January, 2017,

1. The petitioners have a strong likelihood of success in establishing that the removal of the petitioner and others similarly situated violates their rights to Due Process and Equal Protection guaranteed by the United States Constitution;

2. There is imminent danger that, absent the stay of removal, there will be substantial and irreparable injury to refugees, visa-holders, and other individuals from nations subject to the January 27, 2017 Executive Order;
3. The issuance of the stay of removal will not injure the other parties interested in the proceeding;

It is appropriate and just that, pending completion of a hearing before the Court on the merits of the Petition, that the Respondents be enjoined and restrained from the commission of further acts and misconduct in violation of the Constitution as described in the Emergency Motion for Stay of Removal.

**IT IS FURTHER ORDERED** that to assure compliance with the Court's order, the Court directs service of this Order upon the United States Marshal for the Eastern District of New York, and further directs the United States Marshals Service to take those actions deemed necessary to enforce the provisions and prohibitions set forth in this Order.

Port Directors,

Please see the new Project Code that has been set up to track expenditures related to the Executive Order entitled, "Protecting the Nation from Foreign Terrorist Entry into the United States" (January 27, 2017J). Please ensure you begin to use this codes as soon as you begin to see an increase in expenses and workload as a direct result of the E.O. This code can be used to track both operational expenses and overtime costs associated with activity driven by the E.O.

**Subject:** ACTION:MS: Project Code for Executive Order "Protecting the Nation for Foreign Terrorist Entry into the United States" - Z2VM

Directors, Field Operations, and Executive Directors,

The Office of Finance has created Project code **Z2VM** to track CBP costs associated with Executive Order entitled, "Protecting the Nation from Foreign Terrorist Entry into the United States" (January 27, 2017).

This project code is intended to capture all costs as a direct result of the E.O. that are not for work already being captured by a previously issued national project code. For example, if your office is already using a project code to track a certain activity ongoing prior to the issuance of this E.O. then you should continue to do so. However, if your office does see an increase in expenses and workload as a direct result of the E.O. then utilize this project code. This code can be used to track both operational expenses and overtime costs associated with activity driven by the E.O.

Please let me know if you have any questions for what should be included with this project code or have a member of your staff contact Mr. (b)(6), (b)(7)(C) of my staff. Thank you.

Very rare. I am only concerned with people from Iraq or Iran who are LPRs. At any rate, per PAU (b)(6), (b)(7)(C) we currently do not have anyone on board from the SIC. The next cruise ship is the Westerdam arriving on Tuesday. Hopefully, additional guidance/clarification will have been disseminated by then. I shall keep you posted. I shall alert SCBPO (b)(6), (b)(7)(C) who will be at the FIS to supervise JAL processing. He may not be aware about this since he was at the Range yesterday.
